## Lived Experience (LE)

Two focus groups were conducted in December to seek LEAF input and advice around two key trial activities, The Butterfly Foundation and Healthy Ageing Trial. The key purpose for each activity was to provide more information about the current status of research activity and methodology for the corresponding Trial, and get feedback from LEAF on how they may be able to enhance and optimise their activities and engagement.

We successfully recruited an additional 4 LEAF Panel members which have been fully on-boarded. The LEAF Working Group meeting was not held in December the next meeting will take place on Tuesday 5th February 2019.

During December, LEAF was given an opportunity to engage in the following:

- Express their interest in participating in the two focus groups teleconferences.
- Product development lived experience preliminary surveys for feedback on Supportive Other feature, Safety Plan feature and user flow improvements within the platform.
- Contribute to upcoming events to go into the NCC timeline draft; and
- Invitation to all LEAF panel members to be welcome to visit the office if in the area.

## Community Consultation

The National Community Consultation Program was submitted to the DoH on 30 November, and awaiting feedback/ approval from DoH at the time of the Christmas break.
