

2020 SEASONAL INFLUENZA VACCINES

Annual influenza vaccination is recommended for all people aged 6 months and over.

Influenza vaccines are provided free through the National Immunisation Program to the following groups due to their increased risk of complications from influenza:

pregnant women
(at any stage of pregnancy)

people aged 65 years
and over

**Aboriginal & Torres Strait
Islander people**
aged 6 months and over

**people aged 6 months
to less than 5 years**

**people aged 6
months & over with
medical conditions**

putting them at increased risk of severe influenza & complications, including:

- cardiac disease
- chronic respiratory conditions
- chronic neurological conditions
- immunocompromising conditions
- diabetes and other metabolic disorders
- renal disease
- haematological disorders
- children aged 6 months to 10 years on long term aspirin therapy.

Speak to your GP or other immunisation provider if you are unsure if you are eligible for a free influenza vaccine.

If you're not eligible for a free influenza vaccine, you can still get the vaccine from your GP (with a private prescription), a pharmacy immunisation clinic, or another immunisation provider.
