RFT for the Provision of Services to Coordinate and Deliver Trials under the Aged Care System Navigator Measure

Addendum Number 01

Date Issued: 03/10/ 2018

This Addendum is issued as an amendment to the specified document. The amendments are as specified hereunder.

Question	Answer
Can you please confirm if the Services to Coordinate and Deliver Trials under the Aged Care System Navigator Measure request for tender is seeking a single operator that oversees all the trials across Australia or individual operators to run specific trials in their region?	Organisations can submit tenders to provide all or some of the trials. As per item 14 'Part Tenders', of the RFT, the Department has a strong preference to engage a single supplier for the provision of all Services. However, if the Department considers that no Tender meets the requirements and/or represents value for money, it will then evaluate Tenders for part of the Services and may select a Tender for each part or parts of the Services.
