### 3. Background

This product was first listed on the SAS Schedule in July 2012.

### 4. Clinical Place for the Product

The proposed product provides an alternative for users requiring a stoma belt.

#### *Financial Analysis*

Not Applicable.

### 5. SPAP Recommendation

The SPAP recommended the change in product description to four variants in the current product range for the Coloplast Brava Mio Belt (SAS Code 3898E) listed in subgroup 9(b) of the SAS Schedule, at the unit price of \$5.98, with a maximum annual quantity of four units.

## **6. Context for Decision**

The SPAP helps decide whether stoma products should be subsidised and, if so, the conditions of their subsidisation in Australia. It considers submissions in this context. An SPAP decision not to recommend listing or changes to a listing does not represent a final SPAP view about the merits of a particular stoma product. A company can resubmit to the SPAP following a decision not to recommend listing or changes to a listing. The SPAP is an advisory committee and as such its recommendations are non-binding on Government. All SPAP recommendations are subject to Cabinet/Ministerial approval.

## **7. Applicant's Comment**

Coloplast Pty Ltd agrees with the SPAP's recommendation.
