

PUBLIC SUMMARY DOCUMENT

Product: Omnigon Support Briefs for Her

Applicant: Omnigon

Date of SPAP Meeting: 22 October 2019

1. Proposed Variation on the Stoma Appliance Scheme

The applicant, Omnigon, sought the addition of one variant to the current listing of the Omnigon Support Briefs for Her (SAS Code 9752G) in subgroup 9(h) of the Stoma Appliance Scheme (SAS) Schedule. The product, including 12 variants, is currently listed at a unit price of \$60.00, with a maximum annual quantity of six units.

2. Variants to be added

The applicant requested the following variant be added to the existing listing for SAS Code 9752G.

Product Code	Description
SPH207N	Hernia support garment, 20cm wide isoflex waistband, womens brief style pant, beige, fits waist size 115-130cm

3. Background

This product was first listed on the SAS Schedule in April 2011.

4. Clinical Place for the Product

The proposed product provides an alternative for users requiring ostomy pouch support.

Financial Analysis

Listing of one variant is recommended on a cost-minimisation basis compared to products currently listed in subgroup 9(h) of the SAS Schedule. It is therefore unlikely that there would be any budgetary impact for the SAS as a consequence of listing one variant to the current product range.

5. SPAP Recommendation

The Panel recommended the addition of one variant to the current product range for Omnigon Support Briefs for Her (SAS Code 9752G) listed in subgroup 9(h) of the SAS Schedule, at the unit price of \$60.00, with a maximum annual quantity of six units, with an R2 restriction - No authority for an increase in the yearly allocation can be granted.

However, the Panel noted that all recommendations for products to be listed in subgroup 9(h) of the SAS Schedule may be subject to change as a result of the outcomes from the subgroup 9(h) review.

6. Context for Decision

The SPAP helps decide whether stoma products should be subsidised and, if so, the conditions of their subsidisation in Australia. It considers submissions in this context. An SPAP decision not to recommend listing or changes to a listing does not represent a final SPAP view about the merits of a particular stoma product. A company can resubmit to the SPAP following a decision not to recommend listing or changes to a listing. The SPAP is an advisory committee and as such its recommendations are non-binding on Government. All SPAP recommendations are subject to Cabinet/Ministerial approval.

7. Applicant's Comment

Omnigon agrees with the SPAP's recommendation.
