

COVID-19 outbreaks in Australian residential aged care facilities

National snapshot

As at 8:00am on 23 December 2020 there is one active case of COVID-19 related to aged care.

Table 1: Aged Care COVID-19 data as at 0800 on 23 December 2020

| | |
|--|---|
| Active outbreaks | 1 |
| Active resident cases | 0 |
| Active staff cases | 1 |
| Deaths | 678 |
| Total number of residential aged care facilities that have had an outbreak | 218 |
| Total number of outbreaks at residential aged care facilities | 224 |
| Number of residential aged care facilities with resolved outbreaks | 217 (223 outbreaks closed) ¹ |
| Number of residential aged care facilities with only one case (resident or staff member) of COVID-19 | 96 |
| Total resident cases | 2027 |
| Recovered resident cases | 1349 |
| Total staff cases | 2238 |
| Recovered staff cases | 2237 |

¹ Some residential aged care facilities have had more than one outbreak.

Analysis

Current situation in Australia

In Australia, a total of 28,219 cases of COVID-19 have been reported, including 139 active cases and 908 deaths.

As at 8:00am on 23 December 2020, there are no active cases in residential aged care recipients. The last new active case of COVID-19 in a residential aged care recipient was identified on 26 September 2020.

There have been no new active cases of COVID-19 in aged care recipients since 28 October 2020.

On 17 December 2020, new COVID-19 cases were reported in a new cluster in Avalon, New South Wales. As at 23 December 2020, there is one case of COVID-19 in a staff member in a Commonwealth funded aged care service.

Figure 1: Distribution of Australian residential aged care facilities by total number of cases of COVID-19 (includes staff and resident cases)

Of the 218 residential aged care facilities that have had a case(s) of COVID-19, 96 facilities (44 per cent) have had a single case of COVID-19.

International comparisons

During the COVID-19 pandemic, no country has been able to avoid outbreaks or deaths in residential aged care when there has been widespread community transmission.

The Australian death rate is 0.37 per cent (3.7 in 1,000) against the total number of residential aged care beds across the country, and predominantly limited to recent tragic events in Victoria.

By comparison, Canada has experienced more than 20 times the number of deaths in care homes; and the United Kingdom over 40 times the number of deaths in care homes, than Australia.

- As at 23 December 2020, Canada has experienced 14,291 deaths from COVID-19, with 10,247 of these in care homes.
- As at 11 October 2020, in the United Kingdom, there had been 27,727 deaths in care homes.

Australia is currently tracking at 171 deaths in residential aged care, per million population aged over 65.

By comparison, deaths in care homes per million population aged over 65 is:

- Canada – 1,516 deaths
- United Kingdom – 2,252 deaths
- USA – 1,544 deaths
- Belgium – 2,254 deaths.

Workforce in active residential aged care outbreaks

As part of the aged care response, significant surge workforce assistance has been provided including by both State and National Aged Care Emergency Response (NACER) teams, with many workers deployed from interstate.

Table 2: Workforce resources supplied to residential aged care facilities

| Agency | Resources Supplied (as at 20 December 2020) |
|--|--|
| State and NACER (National Aged Care Emergency Response) Teams | Tasmanian Government: 7 clinical and 2 support staff. Western Australian Government: 19 clinical personnel and 4 support staff. South Australian Government: 18 clinical personnel and 4 support staff. 12 NACER teams (70 personnel) have been deployed. The deployment of State and NACER teams is now complete. |
| AUSMAT | Completed 174 visits to 80 aged care facilities. |
| Australian Defence Force | Have visited 593 facilities conducting clinical screens, and conducted a total number of 679 preventative support visits. |
| Recruitment, Consulting, and Staffing Association (RCSA) | Staff supplied to fill 24,746 shifts. |
| Healthcare Australia | Staff supplied filled 5,249 shifts for workforce surge and 2,295 shifts for NACER teams. |
| Mable | Supplied 130 staff to fill 2,711 shifts. |
| Aspen Medical | Supplied staff to fill 698 roles including clinical first responders. |
| Health X | Supplied 37 staff to fill 1,124 shifts. |
| Torrens Health | Supplied 1,181 shifts in surge workforce roles and 1,205 shifts as Residential Aged Care visitation Assistants (RACVAs). |
| Western Health | Visited 37 facilities to provide assistance. Agency is continuing to provide support to one aged care facility. |
| Residential Aged Care Assistants (RACA) | Supplied 54 RACAs to six facilities that have completed 832 shifts. |
| Residential Aged Care Safety Observers (RACSO) | Supplied 47 RACSOs to 18 facilities that have completed 1,346 shifts. |
| Residential Aged Care Visitation Assistant (RACVA) | RACVAs completed 1,205 shifts. |

Provision of personal protective equipment (PPE)

A range of resources and online training on the use of PPE is available on the Department's website for aged care workers.

Since March 2020, the Commonwealth Government has been working with state and territory governments to ensure aged care facilities have sufficient PPE. PPE is dispatched both directly from the National Medical Stockpile (NMS) and by jurisdictions on the NMS' behalf, depending on the specific circumstances.

Over half a billion masks and approximately 53 million gowns, 161 million gloves, and 44 million goggles/face shields have been ordered for staggered delivery into the NMS through to 2021.

As at 23 December 2020, the NMS has provided aged care facilities with approximately:

- 19 million masks
- 5 million gowns
- 11 million gloves
- 4 million goggles and face shields
- 90,000 bottles of hand sanitiser
- 165,000 clinical waste bags.

In response to recent COVID-19 cases reported in the Northern Beaches Local Government Area (LGA), the Australian Government is ensuring residential aged care facilities in the area have sufficient stocks of PPE and dispatching to facilities where needed.

Testing of aged care residents and staff

The Australian Government has engaged Sonic Healthcare to provide a dedicated pathology service for the testing of suspected cases of COVID-19 in residential aged care facilities. The service is intended to supplement existing public health pathology services in aged care through the provision of services from the private sector as required.

As at 15 December 2020, Sonic Healthcare has conducted 248,183 COVID-19 tests at 2,247 unique residential aged care facilities nationally. This includes 215,783 COVID-19 tests at 710 unique residential aged care facilities in Victoria.

Testing regimens for residents and staff at aged care facilities that experience a COVID-19 outbreak is based on advice from the relevant Public Health Unit.

To help the sector to drive down case numbers, the Australian Government has expanded capacity for testing of asymptomatic aged care workers in Victoria. Workers in residential aged care facilities are being tested fortnightly in metropolitan Melbourne, and monthly in regional Victoria. Since 19 October 2020, 2,598 coordinated asymptomatic testing visits have been conducted at 728 aged care facilities, and 53,153 tests conducted in Victoria.

In response to the recent increase in new cases of COVID-19 in New South Wales, the Australian Government has commenced asymptomatic testing in residential aged care facilities in the Northern Beaches area.

Infection control and audits

The Aged Care Quality and Safety Commission (Commission) is conducting an ongoing infection control monitoring program in all Australian jurisdictions, working in partnership with local health authorities. This program is in addition to the Commission's usual assessment and auditing program, and includes spot checks to residential aged care services, without an outbreak, to check compliance with PPE and infection control arrangements.

The purpose of the visit is to observe infection control practices, to ensure that staff, management and visitors are adhering to safe personal protective equipment protocols and to safe infection control arrangements as required under the quality standards.

Since 1 March 2020, the Commission has undertaken 2,142 visits nationally relating to infection control, including spot checks and 2,635 unannounced visits and announced/short notice visits. This includes recent infection control monitoring spot checks in residential aged care facilities in New South Wales, including the Northern Beaches.

All residential aged care facilities are required to engage an onsite clinical lead to provide leadership and increase capacity in relation to infection prevention and control. The Australian Government is providing a second payment of the COVID-19 supplement to assist facilities in meeting the additional costs of preparing for and responding to COVID-19.

In addition, under the Commonwealth-State Plan to boost aged care preparedness, states and territories are complementing the activity being undertaken by the Commission through additional site visits by state health services at the local level, which includes work relating to infection prevention and control (see Table 3 below). These visits are strengthening state health service relationships with local aged care services as part of the standing up of joint health aged care emergency response centres in each jurisdiction.

The Australian Government is working collaboratively with the states and territories to further bolster infection prevention and control through high quality face-to-face training in the aged care sector. In particular, the Government has committed \$57.8 million to fund states and territories to deploy accredited infection prevention and control (IPC) experts into residential aged care facilities to provide training, and assist with the refinement of outbreak management plans where needed.

Table 3 - Total Quality Assessment and Monitoring Activities with residential services (including IPC), by type and month – to 22 December 2020

| Regulatory Activities | Mar-20 | Apr-20 | May-20 | Jun-20 | Jul-20 | Aug-20 | Sep-20 | Oct-20 | Nov-20 | Dec-20* | Total |

² In Victoria, a death is reported when a person with COVID-19 dies during an active outbreak at an aged care facility, irrespective of the cause of death.

³ The 19 deaths at Newmarch House includes the deaths of two residents who had COVID-19 but were considered to have passed away from other causes.
