

PUBLIC SUMMARY DOCUMENT

Product: Dansac NovaLife 1 Closed Convex with EasiView

Applicant: Dansac

Date of SPAP Meeting: 20 October 2020

1. Proposed Deletion on the Stoma Appliance Scheme

The applicant, Dansac, sought the deletion of one variant from the current listing of Dansac NovaLife 1 Closed Convex with EasiView (SAS Code 80017K) in subgroup 1(c) of the Stoma Appliance Scheme (SAS) Schedule, due to low volume sales and newer technology being available. The product, including six variants, is currently listed at a unit price of \$4.707, with a maximum monthly quantity of 60 units.

2. Substitute products

The nominated substitute product is a variant in the Dansac NovaLife TRE Closed Convex (SAS Code 80200C) range. The product, including six variants, is currently listed in subgroup 1(c) of the SAS Schedule at a unit price of \$4.707 with a maximum monthly quantity of 60 units.

Variants to be deleted

Product Code	Description
9310-59	protected dual carbon filter, transparent with fabric cover on both sides including viewing window, large, 550ml, low headspace, no belt loops, hydrocolloid baseplate, medium convexity, firm baseplate material, hydrocolloid self-adhesive, standard wear, oval, cut-to-fit, 10mm, release tabs, 59mm,

Nominated substitute – SAS Code 80200C

Product Code	Description
3031-59	protected single carbon filter, fabric cover on both sides including viewing window, large, 550ml, low headspace, belt loops on each side of baseplate, 0.7mm, hydrocolloid baseplate, medium convexity, rigid convexity, hydrocolloid self-adhesive, standard wear, oval, cut-to-fit, 15mm, release tabs, 59mm

3. Background

This product was first listed on the SAS Schedule in May 2015.

4. Clinical Place for the Product

The proposed substitute product provides an alternative for users requiring a one-piece closed pouch with a convex baseplate.

Financial Analysis

The deletion of one variant is recommended. The substitute product is currently listed in subgroup 1(c) of the SAS Schedule at the same cost and maximum monthly quantity. It is therefore, unlikely that there would be any budgetary impact for the SAS as a consequence of deleting this product.

5. Panel Recommendation

The Panel recommended the deletion of one variant from the product range for Dansac NovaLife 1 Closed Convex with EasiView (SAS Code 80017K) in subgroup 1(c) of the SAS Schedule at the unit price of \$4.707, with a maximum monthly quantity of 60 units.

The Panel also noted that Dansac is to advise Stoma Associations, ostomates, Stomal Therapy Nurses and ACSA of the deletion. A period of approximately six months from the date of the Panel's recommendation (20 October 2020) should be given to allow users of the product to seek a suitable alternative and to enable Stoma Associations to manage their stock levels.

6. Context for Decision

The Panel helps decide whether stoma products should be subsidised and, if so, the conditions of their subsidisation in Australia. It considers submissions in this context. A Panel decision not to recommend listing or changes to a listing does not represent a final Panel view about the merits of a particular stoma product. A company can resubmit to the Panel following a decision not to recommend listing or changes to a listing. The Panel is an advisory committee and as such its recommendations are non-binding on Government. All Panel recommendations are subject to Cabinet/Ministerial approval.

7. Applicant's Comment

Dansac agrees with SPAP's recommendation.
