

PUBLIC SUMMARY DOCUMENT

Product: Omnigon BBraun Flexima Active

Applicant: Omnigon

Date of Meeting: 20 October 2020

1. Proposed Variation on the Stoma Appliance Scheme

The applicant, Omnigon, sought the addition of one variant to the current listing of the Omnigon BBraun Flexima Active (SAS Code 80142B) in subgroup 2(b), of the Stoma Appliance Scheme (the Scheme) Schedule. The product, including 11 variants, is currently listed at a unit price of \$6.373, with a maximum annual quantity of 30 units.

2. Variants to be added

The applicant requested the following variant be added to the existing listing for SAS Code 80142B.

Product Code	Description
4621717	protected single carbon filter, transparent with fabric backing, medium, belt loops on both sides of baseplate, integrated closure, low headspace, hydrocolloid baseplate, hydrocolloid self adhesive, standard wear, hexagon, cut to fit, rigid convex ring. Baseplate opening size 15 – 55 mm

3. Background

This product was first listed on the SAS Schedule in May 2017.

4. Clinical Place for the Product

The proposed product provides an alternative for users requiring a one-piece drainable pouch with a convex baseplate.

Financial Analysis

Listing of one variant is recommended on a cost-minimisation basis compared to products currently listed in subgroup 2(b) of the SAS Schedule. It is therefore, unlikely that there would be any budgetary impact for the SAS as a consequence of listing one variant to the current product range.

5. SPAP Recommendation

The Panel recommended the addition of one variant to the current product range for Omnigon BBraun Flexima Active (SAS Code 80142B) listed in subgroup 2(b), of the SAS Schedule at the unit price of \$6.373, with a maximum monthly quantity of 30 units.

6. Context for Decision

The Panel helps decide whether stoma products should be subsidised and, if so, the conditions of their subsidisation in Australia. It considers submissions in this context. A Panel decision not to recommend listing or changes to a listing does not represent a final Panel view about the merits of a particular stoma product. A company can resubmit to the Panel following a decision not to recommend listing or changes to a listing. The Panel is an advisory committee and as such its recommendations are non-binding on Government. All Panel recommendations are subject to Cabinet/Ministerial approval.

7. Applicant's Comment

Omnigon agrees with the Panel's recommendation.
