

PUBLIC SUMMARY DOCUMENT

Product: Omnigon Pelican

Applicant: Omnigon

Date of SPAP Meeting: 20 October 2020

1. Proposed Deletion on the Stoma Appliance Scheme

The applicant, Omnigon, sought the deletion of two variants from the current listing of Omnigon Pelican (SAS Code 9895T) in subgroup 3(a) of the Stoma Appliance Scheme (SAS) Schedule, as the supplier has advised the product is no longer manufactured. The product, including 14 variants, is currently listed at a unit price of \$4.674, with a maximum monthly quantity of 60 units.

2. Substitute products

The nominated substitute product is a variant in the same range, Omnigon Pelican (SAS Code 9895T).

Variants to be deleted

Product Code	Description
839613	non-return valve single chamber, fabric cover on both sides including viewing window, extra small, 250ml, tap closure with plug, adapter for connection to drainage bag, hydrocolloid baseplate, flat, self-adhesive, standard wear, round, pre-cut, 50mm,
839614	non-return valve single chamber, fabric cover on both sides including viewing window, extra small, 250ml, tap closure with plug, adapter for connection to drainage bag, hydrocolloid baseplate, flat, self-adhesive, standard wear, round, pre-cut, 55mm,

Nominated substitute – SAS Code 9895T

Product Code	Description
839603	non-return valve single chamber, fabric cover on both sides including viewing window, extra small, 250ml, tap closure with plug, adapter for connection to drainage bag, hydrocolloid baseplate, flat, self-adhesive, standard wear, round, cut-to-fit, 12mm, 65mm,

3. Background

This product was first listed on the SAS Schedule in April 2011.

4. Clinical Place for the Product

The proposed substitute product provides an alternative for users requiring a one-piece urostomy pouch with a flat baseplate.

Financial Analysis

The deletion of two variants is recommended. The substitute product is currently listed in subgroup 3(a) of the SAS Schedule at the same cost and maximum monthly quantity. It is therefore, unlikely that there would be any budgetary impact for the SAS as a consequence of deleting this product.

5. Panel Recommendation

The Panel recommended the deletion of two variants from the product range for Omnigon Pelican (SAS Code 9895T) in subgroup 3(a) of the SAS Schedule at the unit price of \$4.674, with a maximum monthly quantity of 60 units.

The Panel also noted that Omnigon is to advise Stoma Associations, ostomates, Stomal Therapy Nurses and ACSA of the deletion. A period of approximately six months from the date of the Panel's recommendation (20 October 2020) should be given to allow users of the product to seek a suitable alternative and to enable Stoma Associations to manage their stock levels.

6. Context for Decision

The Panel helps decide whether stoma products should be subsidised and, if so, the conditions of their subsidisation in Australia. It considers submissions in this context. A Panel decision not to recommend listing or changes to a listing does not represent a final Panel view about the merits of a particular stoma product. A company can resubmit to the Panel following a decision not to recommend listing or changes to a listing. The Panel is an advisory committee and as such its recommendations are non-binding on Government. All Panel recommendations are subject to Cabinet/Ministerial approval.

7. Applicant's Comment

Omnigon agrees with the Panel's recommendation.
