Subject: RE: Prostheses review submission - provision of commercial in confidence data [SEC=OFFICIAL]

Hi s 22

Thanks for your response – it's very much appreciated.

For reference, Medibank has provided our response to the consultation questions via the consultation hub (our response ID is ANON-3GBU-RQWG-J).

As you've suggested however, we will send the supporting data separately via email. The email may be sent via a different address, but it will quote the response ID.

Please don't hesitate to let me know if you have any questions or would like any further information.

Many thanks

s 47F

Subject: [External] FW: Prostheses review submission - provision of commercial in confidence data [SEC=OFFICIAL]

Hi s 47F

Thank you for your enquiry about the consultation process for the Review of the General Miscellaneous Category of the Prostheses List.

I understand you have some concerns about the use of the Department's Consultation Hub. It is not intended that submissions would be made publicly available, with data only being shared with relevant Departmental and EY staff. Any information sent to EY is kept securely.

In terms of next steps with the data, the Department and EY are taking all reasonable steps to ensure that no commercial in confidence information is provided publicly.

Should you wish to provide a submission outside of the Consultation Hub, you may do so by sending relevant information via email at prosthesesreform@health.gov.au.

If you would like to discuss further, I am available from 3.30 onwards. I can be reached on s 22 .

Kind regards,

s 22

Assistant Director

Prostheses Reform

Subject: Prostheses review submission - provision of commercial in confidence data [SEC=No Protective Marking]

Hi s 22

s 22

As you're aware, submissions to the consultation on the review of the general miscellaneous category of the Prostheses List are due today. Medibank proposes to provide some commercial in confidence data to support our submission, however we have concerns about providing such data via the 'consultation hub'. We note the hub makes no reference to how information provided via the hub will be used (e.g. is it intended to be made publicly available, who will have access the information etc.).

Before we provide any data, we would like to understand the Department's proposal for how such information will be treated, particularly as we don't generally use the consultation hub for our submissions.

Would you be the best person to speak to about this? If so, are you free this afternoon sometime for a quick discussion? I can make myself available any time after 3pm, if that suits.

Thanks in advance.

Regards
