Dear ^{s22}

Thank you very much for sharing. It is fantastic to see the funding of the below mentioned applications. And wonderful to hear of the Minister supporting additional funding to fully finance the applications in their entirety.

Looking forward to hearing of the announcements and embarking upon preparations for the next funding tranches.

As a mental health service user and historically a user of child and youth services and eating disorder services, this is truly heartwarming and encouraging.
Thank you.

Kind regards,

COMMITTEE IN CONFIDENCE

Dear Advisory Panel members

It is with great pleasure that I advise that the Minister for Health, the Hon. Greg Hunt MP approved the outcomes of the first Million Minds Mental Health Research Mission grants round. In total, seven projects have been approved for funding: two child and youth (approx. \$10 million), two eating disorders (approx. \$5 million), and three Aboriginal and Torres Strait Islander mental health projects (approx. \$12.45 million). You will note that the Minister has exercised his discretion to approve an additional \$2.45 million to ensure that the application that straddled the cusp of the funding cut off could be funded in its entirety.

The list of successful applications is below. Please note that this information is currently under embargo and forwarded to you as **committee in confidence** and cannot be passed on until this embargo is lifted. We will advise by way of email when this embargo has been lifted.

We anticipate that the Minister will be making announcements covering these grants in the

coming days.
