Thanks s22

Indeed – the specific contact supermarkets are looking for is who in State or Territory Health Departments to call when they have a confirmed (or suspected) case of COVID19 in their workforce. They are working to develop effective plans, to roll out to stores/warehouse, so their response is effective and streamlined when required.

Hi s22

The [link provided](#) lists the Worksafe or equivalent support agency for each jurisdiction and all have compiled COVID specific information to support employers. We suggest the supermarket chains and their WHS consultants reach out proactively to establish relationships with these services ahead of their need increasing. Or could the National Retailers Association provide this support?

Kind regards
