

New Zealand – Situation update

12 May 2021

Information presented in this assessment is based on New Zealand's publicly available information provided on the New Zealand Ministry of Health website.¹

Current Assessment Summary

- There have been no locally acquired cases of COVID-19 in the last 22 days
- All of New Zealand is at Alert Level 1.

Summary of Cases as at 11:00 AEDT, 12 May 2021

	Total	Change in last 7 days
Confirmed cases	2287	14*
Deaths	26	0
Current hospitalised	0	0

*In the last 7 days, New Zealand reported eight active overseas acquired cases (in managed isolation), and an additional 8 cases that were classified as historical. In addition, one was reclassified as 'not a case' and another reclassified as 'under investigation', resulting in net increase of 14 cases in the past 7 days, which accounts for the total change in confirmed cases.

Source of acquisition of cases* for the 7 days to 12 May 2021

Overseas acquired/associated	8**
Locally acquired	0

*New Zealand categorises overseas acquired/associated cases (including those in managed isolation in New Zealand) as 'at the border'; New Zealand categorises locally acquired cases as 'in the community'.

**In the last 7 days, New Zealand reported eight active overseas acquired cases (in managed isolation), and an additional 8 cases that were classified as historical. In addition, one was reclassified as 'not a case' and another reclassified as 'under investigation', resulting in net increase of 14 cases in the past 7 days, which accounts for the total change in confirmed cases.
