

COVID-19 Vaccine Roll-out

24 May 2021

Data as at:
23 May 2021

Total vaccine doses

1,274,750 (+5,949 past 24 hours)

Total vaccine doses administered in State and Territory clinics as at 23 May

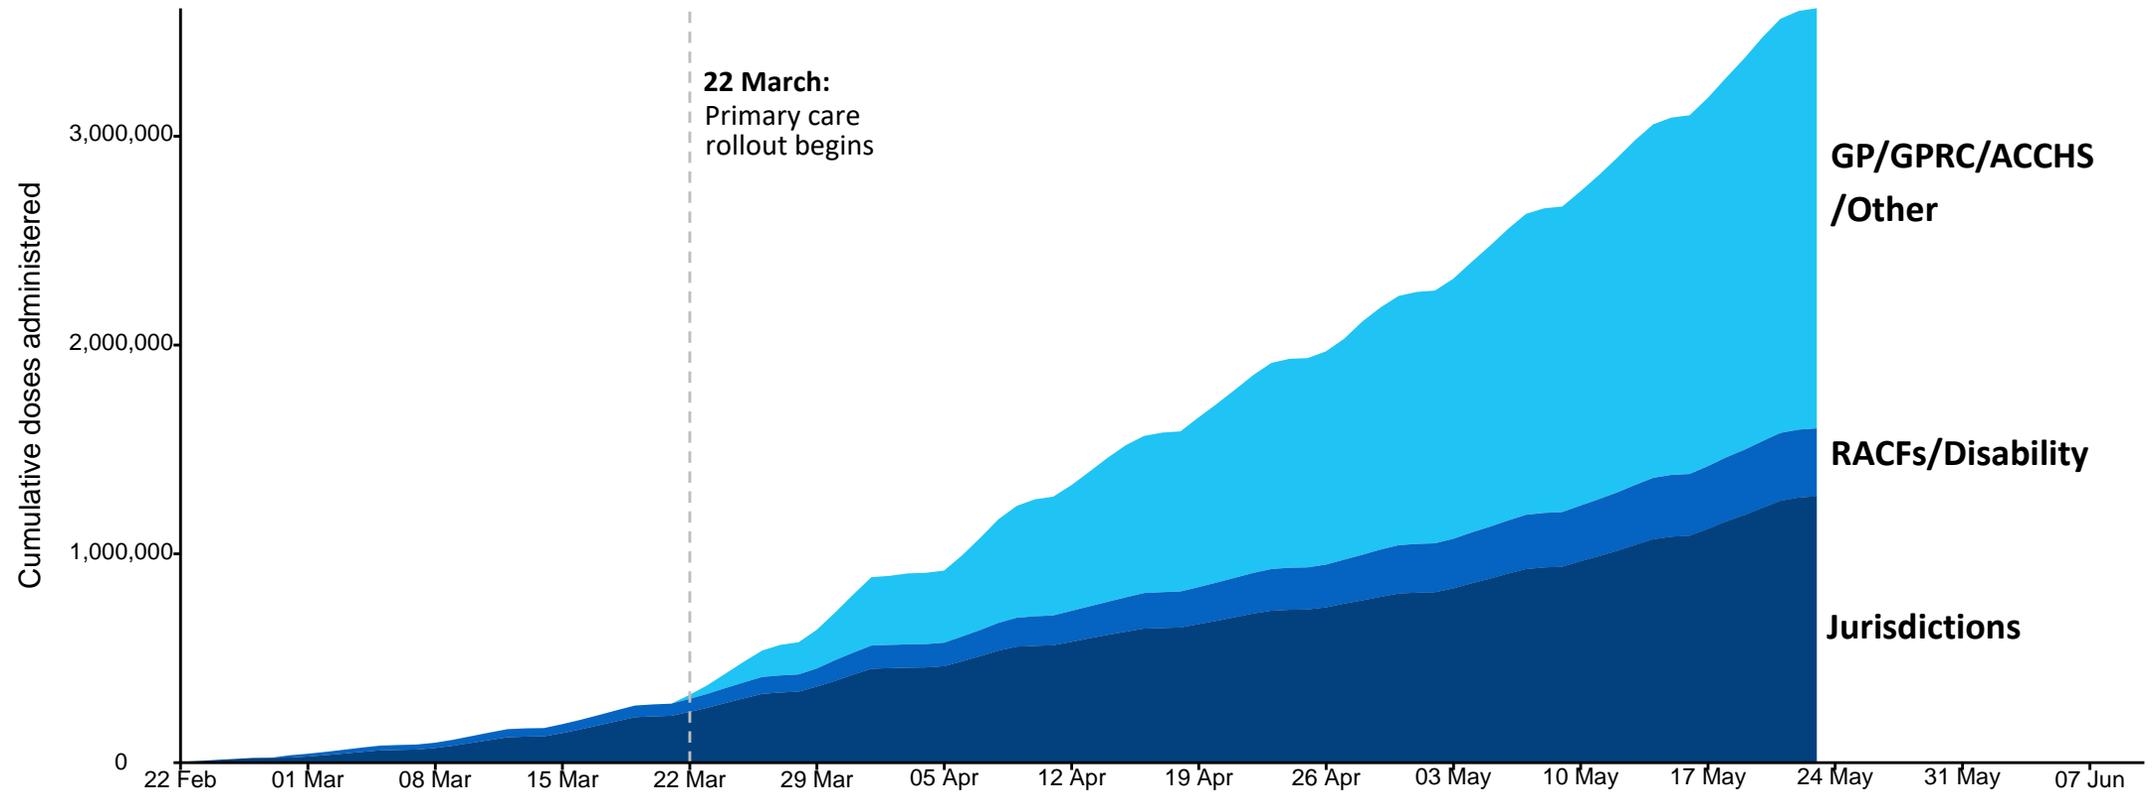

* Source: Australian Immunisation Register and self reported data. Numbers are calculated as differences in daily cumulative reported numbers to allow for historical corrections in all self-reported data sources.

Cumulative doses administered by channel

Data as at:
23 May 2021

Cumulative doses administered (23 May): **3,613,053**

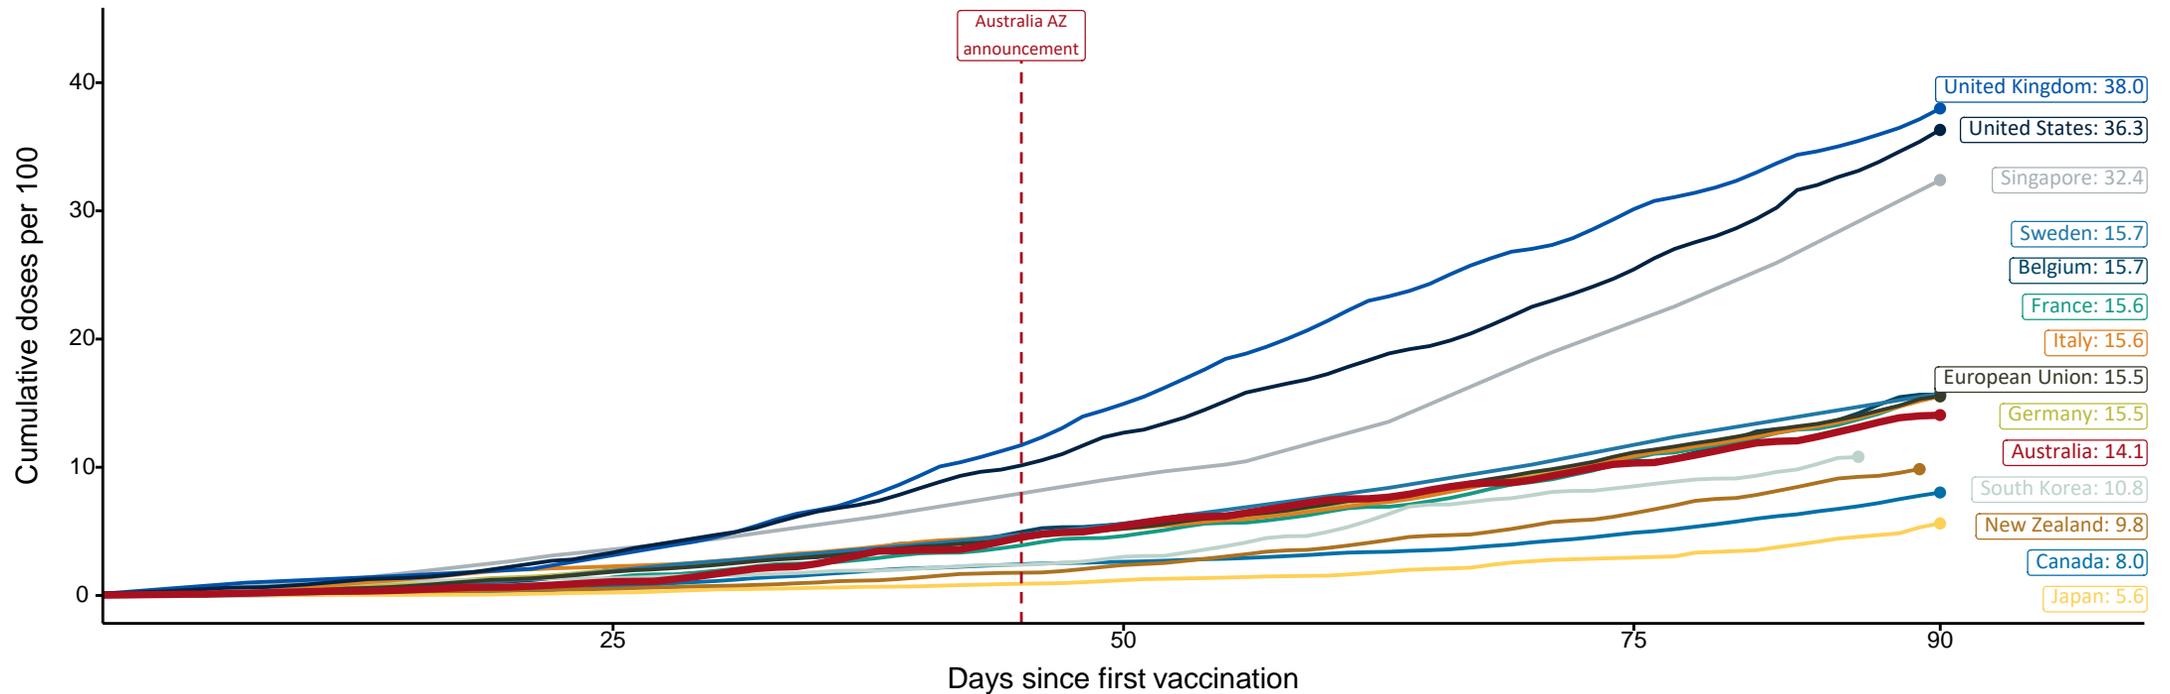

Source: Department of Health
Data as at 23 May

International comparisons at equivalent stages of rollout (Day 90)

Data as at: 23 May 2021

Cumulative doses administered (23 May): **3,613,053**

The x-axis is truncated at the length of Australia's vaccination program. Countries with intermittent reporting have had their doses per 100 imputed to Australia's current stage of rollout. Israel excluded as it is beyond scale of the graph.

Total	6,409,010	5,540,846	3,613,053	1,927,793	75%

About this data

- **Distributed** – Total doses delivered to sites. Based on logistics provider data. This figure includes doses allocated for administration in the coming week.
- **Available** – total doses that could have been administered to date. (i.e. does not include those deliveries recently received, and intended for use in the coming week).
- **Administered** – Doses administered as at 23 May 2021.
- The **dose utilisation** is calculated based on the total doses administered and a small % wastage in line with international standards in relation to total available doses.
- **Distributed and Available** figures have been amended based on Jurisdictional reallocation of doses to Primary Care locations.
- For Aged Care & Disability, the doses available for administration is for the full period (Weeks 1-13).
- Aged care & disability utilisation is not provided as the in-reach rollout is demand-based, with vaccines ordered based on resident numbers.
