

# COVID-19 VACCINATION UPDATE

There have been updates to the vaccination program:

- The Pfizer vaccine is now the preferred vaccine for adults **aged under 60 years**.
- For those aged **60 and over**, the advice remains the same – to receive the AstraZeneca vaccine.
- People who **have already had the first dose of the AstraZeneca vaccine** and haven't had any significant side-effects will be able to receive their second dose.

If you have any concerns or questions regarding the COVID-19 vaccination, please talk to your health care worker.
