Analysis

Current situation in Australia

As at 12:00 hrs 01 July 2021 there has been a total of 30,643 cases of COVID-19 reported, including 339³ active cases and 910 deaths in Australia.

As at 8:00 am 02 July 2021, there are two (2) active staff cases of COVID-19 in one (1) residential aged care facility in NSW (Summitcare Baulkham Hills).

In NSW, all residential age care facilities are being monitored through the NSW Aged Care State Health Emergency Operations Centre. A Commonwealth Health Departmental officer is embedded with the NSW State Health Emergency Operations Centre, with additional supports ready to be activated as the need arises. The Commonwealth is supporting this facility with workforce surge deployments, including a Clinical First Responder.

The Chief Medical Officer (CMO) has declared all LGAs in Greater Sydney, including the Blue Mountains, Central Coast and Wollongong to be a hotspot for the purposes of Commonwealth support from 6pm 26 June to 11:59pm on 9 July 2021, with further review on or before 8 July 2021. Declaring a hotspot for Commonwealth support triggers additional supports, such as the Support for Aged Care Workers in COVID-19 (SACWIC) grant to support providers to implement single site working arrangements in specified locations within the hotspot area and in areas in close proximity to the hotspot area.

Figure 1: Distribution of Australian residential aged care facilities by total number of cases of COVID-19 (includes staff and resident cases)

³ *Classification of active cases varies by jurisdiction.

Of the 218 residential aged care facilities that have had a case(s) of COVID-19, 95 facilities (44 per cent) have had a single case of COVID-19.

International comparisons

During the COVID-19 pandemic, no country has been able to avoid outbreaks or deaths in residential aged care when there has been widespread community transmission.

The Australian death rate is 0.37 per cent (3.7 in 1,000) against the total number of residential aged care beds across the country.

By comparison, Canada has experienced more than 22 times the number of deaths in care homes; than Australia as at 01 July 2021.

- As at 01 July 2021, Canada had experienced 26,181 deaths – 15,246 (or 59 per cent) in care homes.

Workforce in active residential aged care outbreaks

As part of the aged care response, significant surge workforce assistance has been provided including by both State and National Aged Care Emergency Response (NACER) teams, with many workers deployed from interstate.

Table 2: Workforce resources supplied to residential aged care facilities

| Agency | Resources Supplied (as at 27 June 2021) |
|---|---|
| State and NACER (National Aged Care Emergency Response) Teams | <p>Tasmanian Government: 7 clinical and 2 support staff.</p> <p>Western Australian Government: 19 clinical personnel and 4 support staff.</p> <p>South Australian Government: 18 clinical personnel and 4 support staff.</p> <p>12 NACER teams (70 personnel) have been deployed.</p> <p>The deployment of State and NACER teams is now complete.</p> |

⁴ National daily cases sourced from NNDSS data as at 02 July 2021 and are filtered to locally acquired cases. Case numbers reflect the date of reporting which may differ to diagnosis date. Residential aged care facility staff and resident data sourced from the Department of Health Aged Care COVID Liaison Team. Totals reflect the date of case report and may be affected by delayed reporting.

'RACF' refers to cases in residential aged care facilities (staff and residents)

| Agency | Resources Supplied (as at 27 June 2021) |
|--|--|
| Recruitment, Consulting, and Staffing Association (RCSA) | Staff supplied to fill 24,862 shifts. |
| Healthcare Australia | Staff supplied filled 5,249 shifts for workforce surge and 2,295 shifts for NACER teams. |
| Mable | Supplied 130 staff to fill 2,711 shifts. |
| Aspen Medical | Supplied 283 staff to fill 792 roles including clinical first responders. |
| Health X | Supplied 43 staff to fill 1,936 shifts. |
| Torrens Health | Supplied 1,248 shifts in surge workforce roles and 1,270 shifts as Residential Aged Care visitation Assistants (RACVAs). |
| Residential Aged Care Visitation Assistant (RACVA) | RACVAs completed 1,270 shifts. |

Provision of personal protective equipment (PPE)

A range of resources and online training on the use of PPE is available on the Department's website for aged care workers.

Since March 2020, the Commonwealth Government has been working with state and territory governments to ensure aged care facilities have sufficient PPE. PPE is dispatched both directly from the National Medical Stockpile (NMS) and by jurisdictions on the NMS' behalf, depending on the specific circumstances.

As at 29 June 2021, the NMS has provided aged care facilities with approximately:

- 20 million masks
- 5 million gowns
- 11 million gloves
- 5 million goggles and face shields
- 80,000 bottles of hand sanitiser

The NMS remains well positioned to respond rapidly to critical shortages of PPE and other medical supplies anywhere in Australia. This includes a series of bulk dispatches of personal protective equipment (PPE) intended to avert any potential critical supply shortages, as well as urgent deployments to organisations and individuals at risk of exposure to COVID-19.

Testing of aged care residents and staff

The Australian Government has engaged Sonic Healthcare to provide a dedicated pathology service for the testing of suspected cases of COVID-19 in residential aged care facilities. The service is intended to supplement existing public health pathology services in aged care through the provision of services from the private sector as required. Testing regimens for residents and staff at aged care facilities that experience a COVID-19 outbreak is based on advice from the relevant Public Health Unit.

As at 22 June 2021, Sonic Healthcare has conducted 401,796 COVID-19 tests at 2,459 unique residential aged care facilities nationally.

Vaccination in Residential Aged Care Facilities

The Australian Government has identified consumers and staff in RACFs as being high priority targets for Phase 1 of its vaccine rollout.

All first dose COVID-19 vaccination clinics across residential aged care facilities in the Commonwealth's aged care rollout are now completed. As at 2 July 2021, 457,624 COVID-19 vaccine doses have been administered to people in 2,566 residential aged care facilities across Australia. 2,565 of these facilities have had their second dose visit.

Support is being provided to the NSW Government in response to the current outbreak. The commonwealth is deploying in-reach roving vaccination clinics for residents and workforce who are yet to receive a vaccination at 238 residential aged care facilities across the LGAs that have been declared a hotspot within Sydney. The Department will continue to monitor the situation and will expand the scope of activity in NSW as needed.

Infection control and audits

The Aged Care Quality and Safety Commission (Commission) conducted an infection control monitoring (ICM) program in all Australian jurisdictions, working in partnership with local health authorities. This program was in addition to the Commission's usual assessment and auditing program, and included spot checks to residential aged care services, without an outbreak, to check compliance with PPE and infection control arrangements. The purpose of the visit was to observe infection control practices, to ensure that staff, management and visitors were adhering to safe personal protective equipment protocols and to safe infection control arrangements as required under the quality standards.

As at 31 March, the Commission has undertaken 2,727 spot checks to observe infection control practices and PPE protocols in residential aged care facilities. The Commission is transitioning to a COVID-normal regulatory response and has ICM Spot Check Visit program. ICM spot check visits will no longer be undertaken as separate activities and will instead monitoring will now be undertaken within the Commission's usual regulatory operations.

All residential aged care facilities are required to engage an onsite clinical lead to provide leadership and increase capacity in relation to infection prevention and control. The Australian Government is providing a second payment of the COVID-19 supplement to assist facilities in meeting the additional costs of preparing for and responding to COVID-19.

In addition, under the Commonwealth-State Plan to boost aged care preparedness, states and territories are complementing the activity being undertaken by the Commission through additional site visits by state health services at the local level, which includes work relating to infection prevention and control (see Table 3 below). These visits are strengthening state health service relationships with local aged care services as part of the standing up of joint health aged care emergency response centres in each jurisdiction.

The Australian Government is working collaboratively with the states and territories to further bolster infection prevention and control through high quality face-to-face training in the aged care sector. In particular, the Government has committed \$57.8 million to fund states and territories to deploy accredited infection prevention and control (IPC) experts into residential aged care facilities to provide training, and assist with the refinement of outbreak management plans where needed.
