

COVID-19 outbreaks in Australian residential aged care facilities

National snapshot

As at 8:00am on 30 July 2021 there are 21 active cases of COVID-19 related to aged care across 7 residential aged care facilities.

Table 1: Aged Care COVID-19 data as at 0800 on 30 July 2021¹

Active outbreaks	7
Active resident cases	6
Active staff cases	15
Deaths this calendar year	0 ²
Total number of residential aged care facilities that have had an outbreak	224
Total number of outbreaks at residential aged care facilities	235 ³
Number of residential aged care facilities with resolved outbreaks	217 (228 outbreaks closed) ⁴
Number of residential aged care facilities with resolved outbreaks with only one case (resident or staff member) of COVID-19	96
Total resident cases	2,060
Recovered resident cases	1,369
Total staff cases	2,261
Recovered staff cases	2,246

¹ Includes transition care

² There were 685 deaths in RACFs in 2020.

³ This includes two historical cases in transition care services that have been added from previous updates.

⁴ Some residential aged care facilities and transition care services have had more than one outbreak.

Analysis

Current situation in Australia

As at 12:00 hrs 30 July 2021 there has been a total of 33,732 cases of COVID-19 reported, including 2,857⁵ active cases and 922 deaths in Australia.

As at 8:00 am 30 July 2021, there are 7 active staff cases and 6 resident cases of COVID-19 in Summitcare Baulkham Hills, New South Wales (NSW). NSW. As at 8:00 am 30 July 2021 there is two (2) active staff case of COVID-19 in Japara Corymbia, NSW. As at 8:00 am 30 July 2021 there is one (1) active staff case of COVID-19 in The Palms Nursing Home, NSW. As at 8:00 am 23 July 2021 there is one (1) active staff case of COVID-19 in Rosemore Aged Care, NSW. As at 8:00 am 30 July 2021 there are two (2) active staff cases of COVID-19 in Bankstown Terrace Care Community, NSW. As at 8:00 am 30 July 2021 there is one (1) active staff case of COVID-19 in Milford House, NSW. As at 8:00 am 30 July 2021 there is one (1) active staff case of COVID-19 in Wyoming Nursing Home, NSW.

As at 11:59pm 29 July 2021, the outbreak at Minchinbury Manor was declared over and has entered the Enhanced Surveillance phase.

In NSW, all residential age care facilities are being monitored through the NSW Aged Care State Health Emergency Operations Centre. A Commonwealth Health Departmental officer is embedded with the NSW State Health Emergency Operations Centre, with additional supports activated as the need arises. The Commonwealth is supporting both facilities with workforce surge deployments, including a Clinical First Responder.

On 29 July 2021, the Australian Government (Government) Chief Medical Officer has extended the Hotspot for the purposes of Commonwealth support for all LGAs in Greater Sydney, including the Blue Mountains, Central Coast, Shellharbour and Wollongong until 11:59pm on 28 August 2021, with further review on or before 29 July 2021. Declaring a hotspot for Commonwealth support triggers additional supports, such as the Support for Aged Care Workers in COVID-19 (SACWIC) grant to support providers to implement single site working arrangements in specified locations within the hotspot area and in areas in close proximity to the hotspot area. These arrangements have been extended and will remain in place until 11 September 2021.

The Acting Australian Government Chief Medical Officer, Professor Michael Kidd, lifted the COVID-19 hotspot declaration for all locations in Victoria from 11:59pm on 27 July 2021. Single site workforce arrangements and the SACWIC Grant has been activated in these areas from 16 to 30 July. These have been extended in Greater Melbourne and surrounds and will remain in place until 13 August 2021.

The Acting Australian Government Chief Medical Officer, Professor Michael Kidd also lifted the COVID-19 hotspot declaration of Metropolitan Adelaide, from 11:59pm 27 July 2021. Single site arrangements and the SACWIC Grant were activated and in place in Metropolitan Adelaide from 20 July to 3 August 2021.

The Acting Australian Government Chief Medical Officer, Professor Michael Kidd, has lifted the COVID-19 hotspot declaration of Orange City Council, Blayney Shire Council and Cabonne Shire Council, from 11:59pm on 28 July 2021. Single site arrangements and the SACWIC Grant were activated and in place in these local government areas from 21 July to 4 August 2021.

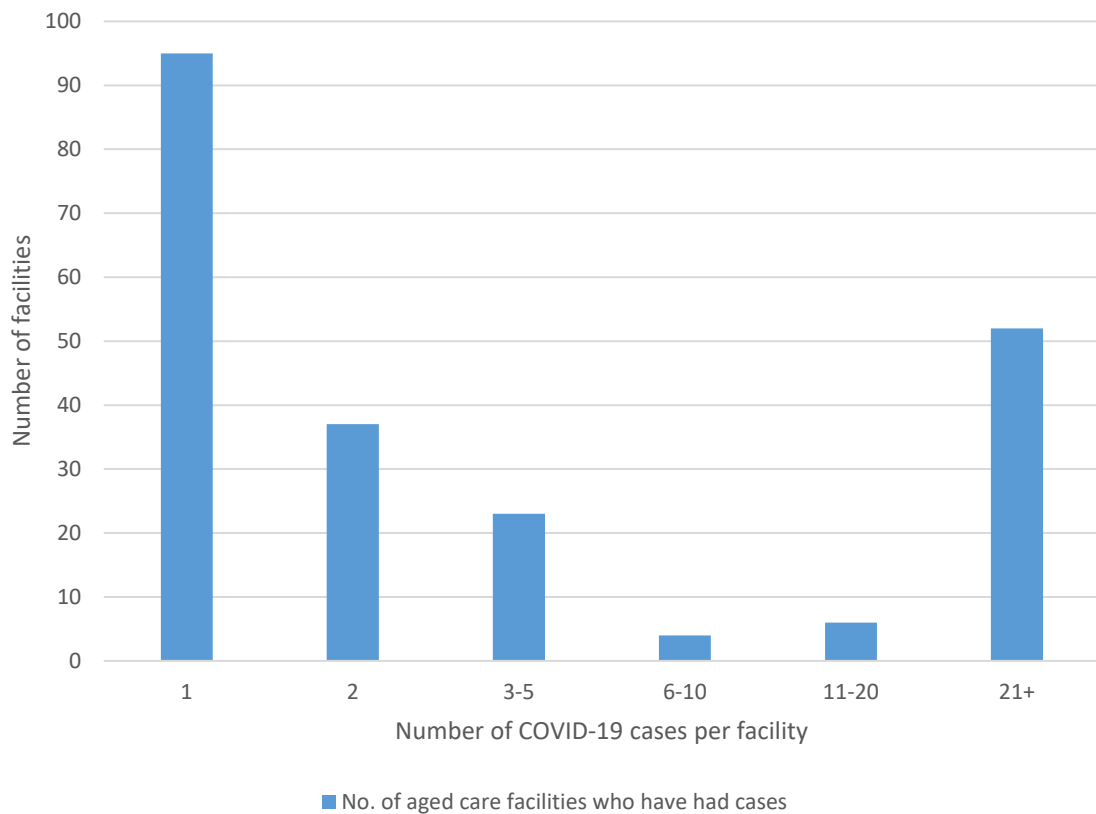

On 22 July 2021, Queensland announced that from 0100 hrs 23 July 2021, all of NSW will be a declared COVID-19 hotspot. A border zone will come into effect at this time.

⁵ Classification of active cases varies by jurisdiction.

Travellers who have been in a declared COVID-19 hotspot in the last 14 days are not allowed to enter Queensland, except for people who travelling for essential purposes.

On 22 July 2021, Western Australia (WA) announced that it considers South Australia (SA) a 'medium risk' state under WA's controlled border, effective at 1200 hrs 22 July 2021. Travel from SA to WA is no longer be permitted, except for approved travellers.

Figure 1: Distribution of Australian residential aged care facilities by total number of cases of COVID-19 (includes staff and resident cases)

Of the 224 residential aged care facilities that have had a case(s) of COVID-19, 99 facilities (44 per cent) have had a single case of COVID-19. As at 30 July 2021, 91.3 per cent of all residential aged care facilities have had no cases of COVID-19 in residents or staff.

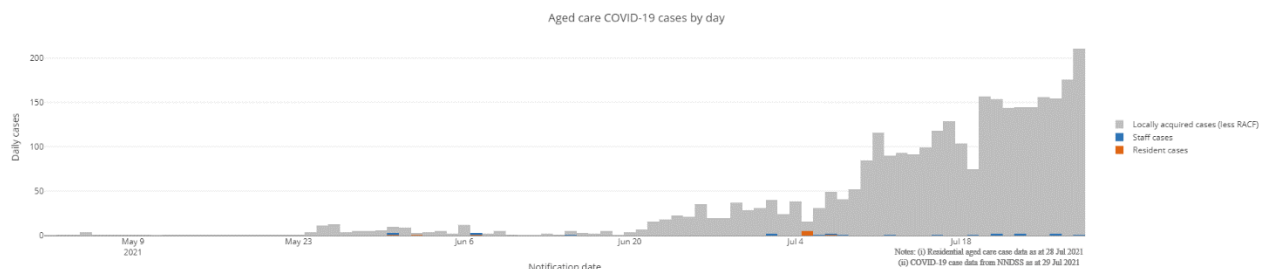

Figure 2: Number of daily reported COVID-19 cases in Australian residential aged care facilities overlaid with national locally acquired cases⁶.

⁶ National daily cases sourced from NNDSS data as at 15 July 2021 and are filtered to locally acquired cases. Case numbers reflect the date of reporting which may differ to diagnosis date. Residential aged care facility staff and resident data sourced from the Department of Health Aged Care COVID Liaison Team. Totals reflect the date of case report and may be affected by delayed reporting.

'RACF' refers to cases in residential aged care facilities (staff and residents)

International comparisons

During the COVID-19 pandemic, no country has been able to avoid outbreaks or deaths in residential aged care when there has been widespread community transmission.

The Australian death rate is 0.37 per cent (3.7 in 1,000) against the total number of residential aged care beds across the country.

By comparison, Canada has experienced more than 22 times the number of deaths in care homes than Australia as at 23 July 2021.

- As at 26 July 2021, Canada had experienced 26,499 deaths – 15,213⁷ (or 57 per cent) in care homes.
- 47 per cent of all aged care homes in Canada have had reported cases of COVID-19 in residents or staff (compared to 8.7 per cent in Australia).

Workforce in active residential aged care outbreaks

As part of the aged care response, significant surge workforce assistance has been provided including by both State and National Aged Care Emergency Response (NACER) teams, with many workers deployed from interstate.

Table 2: Workforce resources supplied to residential aged care facilities

Agency	Resources Supplied (as at 25 July 2021)
State and NACER (National Aged Care Emergency Response) Teams	Tasmanian Government: 7 clinical and 2 support staff. Western Australian Government: 19 clinical personnel and 4 support staff. South Australian Government: 18 clinical personnel and 4 support staff. 12 NACER teams (70 personnel) have been deployed. The deployment of State and NACER teams is now complete.
Recruitment, Consulting, and Staffing Association (RCSA)	Staff supplied to fill 26,213 shifts.
Healthcare Australia	Staff supplied filled 5,332 shifts for workforce surge and 2,295 shifts for NACER teams.
Mable	Supplied 130 staff to fill 2,711 shifts.
Aspen Medical	Supplied 283 staff to fill 810 roles including clinical first responders.
Health X	Supplied 43 staff to fill 2029 shifts.

Agency	Resources Supplied (as at 25 July 2021)
Torrens Health	Supplied 1,248 shifts in surge workforce roles and 1,270 shifts as Residential Aged Care visitation Assistants (RACVAs).
Residential Aged Care Visitation Assistant (RACVA)	RACVAs completed 1,270 shifts.

Provision of personal protective equipment (PPE)

A range of resources and online training on the use of PPE is available on the Department's website for aged care workers.

Since March 2020, the Commonwealth Government has been working with state and territory governments to ensure aged care facilities have sufficient PPE. PPE is dispatched both directly from the National Medical Stockpile (NMS) and by jurisdictions on the NMS' behalf, depending on the specific circumstances.

As at 27 July 2021, the NMS has provided aged care facilities with approximately:

- 20 million masks
- 5 million gowns
- 12 million gloves
- 5 million goggles and face shields
- 80,000 bottles of hand sanitiser

The NMS remains well positioned to respond rapidly to critical shortages of PPE and other medical supplies anywhere in Australia. This includes a series of bulk dispatches of personal protective equipment (PPE) intended to avert any potential critical supply shortages, as well as urgent deployments to organisations and individuals at risk of exposure to COVID-19.

Testing of aged care residents and staff

The Australian Government has engaged Sonic Healthcare to provide a dedicated pathology service for the testing of suspected cases of COVID-19 in residential aged care facilities. The service is intended to supplement existing public health pathology services in aged care through the provision of services from the private sector as required. Testing regimens for residents and staff at aged care facilities that experience a COVID-19 outbreak is based on advice from the relevant Public Health Unit.

As at 27 July 2021, under contract with the Commonwealth, Sonic Healthcare has conducted 439,139 COVID-19 tests at 2,515 unique residential aged care facilities (RACFs) nationally.

Vaccination in Residential Aged Care Facilities

All first and second dose COVID-19 vaccination clinics across residential aged care facilities in the Commonwealth's aged care rollout are now completed. As at 30 July 2021 315,677 COVID-19 vaccine doses have been administered to people in 2,566 residential aged care facilities across Australia.

Support is being provided to the NSW Government in response to the current outbreak. The Commonwealth is deploying in-reach roving vaccination clinics for residents and workforce who are yet to receive a vaccination at 302 residential aged care facilities across the original 23 LGAs that have been declared a hotspot within Sydney. 229 of these facilities have had a first dose clinic and 157 have had a second dose clinic. Department will continue to monitor the situation and will expand the scope of activity in NSW as needed.

Infection control and audits

The Aged Care Quality and Safety Commission (Commission) conducted an infection control monitoring (ICM) program in all Australian jurisdictions, working in partnership with local health authorities. This program was in addition to the Commission's usual assessment and auditing program, and included spot checks to residential aged care services, without an outbreak, to check compliance with PPE and infection control arrangements. The purpose of the visit was to observe infection control practices, to ensure that staff, management and visitors were adhering to safe personal protective equipment protocols and to safe infection control arrangements as required under the quality standards.

As at 30 July 2021, the Commission has undertaken 2,810 spot checks to observe infection control practices and PPE protocols in residential aged care facilities. The Commission is transitioning to a COVID-normal regulatory response and has ICM Spot Check Visit program. ICM spot check visits will no longer be undertaken as separate activities and will instead be undertaken within the Commission's usual regulatory operations.

All residential aged care facilities are required to engage an onsite clinical lead to provide leadership and increase capacity in relation to infection prevention and control. The Australian Government is providing a second payment of the COVID-19 supplement to assist facilities in meeting the additional costs of preparing for and responding to COVID-19.

In addition, under the Commonwealth-State Plan to boost aged care preparedness, states and territories are complementing the activity being undertaken by the Commission through additional site visits by state health services at the local level, which includes work relating to infection prevention and control (see Table 3 below). These visits are strengthening state health service relationships with local aged care services as part of the standing up of joint health aged care emergency response centres in each jurisdiction.

The Australian Government is working collaboratively with the states and territories to further bolster infection prevention and control through high quality face-to-face training in the aged care sector. In particular, the Government has committed \$57.8 million to fund states and territories to deliver additional targeted infection prevention and control (IPC) training to enhance RACF staff IPC skills; and undertake prevention, preparedness and response activities to address a COVID-19 outbreak in RACFs, including supporting RACFs to uplift IPC capacity by providing IPC training.

Table 3: Total Quality Assessment and Monitoring Activities with residential services (including IPC), by type and month 1 July 2020 – to 30 July 2021

Regulatory Activities	Jul-20	Aug-20	Sep-20	Oct-20	Nov-20	Dec-20	Jan-21	Feb-21	Mar-21	Apr-21	May-21	Jun-21	Jul-21	Total⁸
