***Please provide a short description (up to 100 words) of the project activities, outcomes, and benefits it will bring.***

Our shared clubhouse is 38 years old. There are two showers shared between 30 players. There are no female toilets, female change rooms or public toilets for visitors. The facility does not meet the standards set by Queensland Rugby Union or Cricket Australia.

A new clubhouse will be built to an acceptable community standard.

The benefits to both clubs will be an increase in membership, including females. In addition we will be able to host future Queensland Rugby Union Trial Carnivals and Female Cricket Competitions at the sports ground, involving teams from across Brisbane and the wider Queensland community.
