

COVID-19 outbreaks in Australian residential aged care facilities

National snapshot

As at 8:00am on 17 September 2021 there are 262 active cases of COVID-19 related to aged care across 47 residential aged care facilities.

Table 1: Aged Care COVID-19 data as at 0800 on 17 September 2021¹

Active outbreaks	47
Active resident cases	172
Active staff cases	90
Deaths this calendar year	24 ²
Total number of residential aged care facilities that have had an outbreak	305
Total number of outbreaks at residential aged care facilities	329
Number of residential aged care facilities with resolved outbreaks	261 (282 outbreaks closed)
Number of residential aged care facilities with resolved outbreaks with only one case (resident or staff member) of COVID-19	138
Total resident cases	2,338
Recovered resident cases	1,422 ³
Total staff cases	2,427
Recovered staff cases	2,337

- one (1) active staff case of COVID-19 in Regis Rose Bay, NSW;
- one (1) active staff case of COVID-19 in Southern Cross Care Marian Nursing Home, North Paramatta, NSW;
- one (1) active resident COVID-19 case and one (1) active staff case of COVID-19 in St George Aged Care Facility, Bexley, NSW; (second outbreak);
- two (2) active staff COVID-19 cases in St Simeon Village Nursing Home, Plumpton, NSW;
- one (1) active staff COVID-19 case in SummitCare Penrith, Penrith, NSW;
- one (1) active staff case of COVID-19 in Thomas and Rosetta Agst Aged Care Facility, NSW;
- one (1) active staff case of COVID-19 in Uniting Aldersgate Lilyfield, NSW;
- nine (9) active resident cases including one (1) confirmed COVID resident death, and one (1) active staff of COVID-19 in Uniting Edinglassie, Penrith, NSW;
- two (2) active staff cases of COVID-19 in Uniting Hawkesbury, Richmond, NSW;
- one (1) active staff case of COVID-19 in Uniting Mullauna, Blacktown (second outbreak), NSW;
- two (2) active resident cases and two (2) active staff cases of COVID-19 in Uniting Springwood, NSW;
- 14 resident cases and one (1) active staff case of COVID-19 in Yallambee Village, NSW;
- one (1) active staff case of COVID-19 in Craigcare Moonee Ponds, VIC;
- one (1) active staff case of COVID-19 in Hope Aged Care Gladstone Park, VIC;
- one (1) active staff case of COVID-19 in Japara Bayview Carrum Downs, VIC;
- one (1) active staff case of COVID-19 in Twin Parks Aged Care, VIC.

In NSW, all residential age care facilities are being monitored through the NSW Aged Care State Health Emergency Operations Centre. A Commonwealth Health Departmental officer is embedded with the NSW State Health Emergency Operations Centre, with additional supports activated as the need arises. The Commonwealth is supporting both facilities with workforce surge deployments, including a Clinical First Responder.

On 29 July 2021, the Australian Government (Government) Chief Medical Officer has extended the Hotspot for the purposes of Commonwealth support for all LGAs in Greater Sydney, including the Blue Mountains, Central Coast, Shellharbour and Wollongong until 11:59pm on 28 August 2021, with further review on or before 28 August 2021.

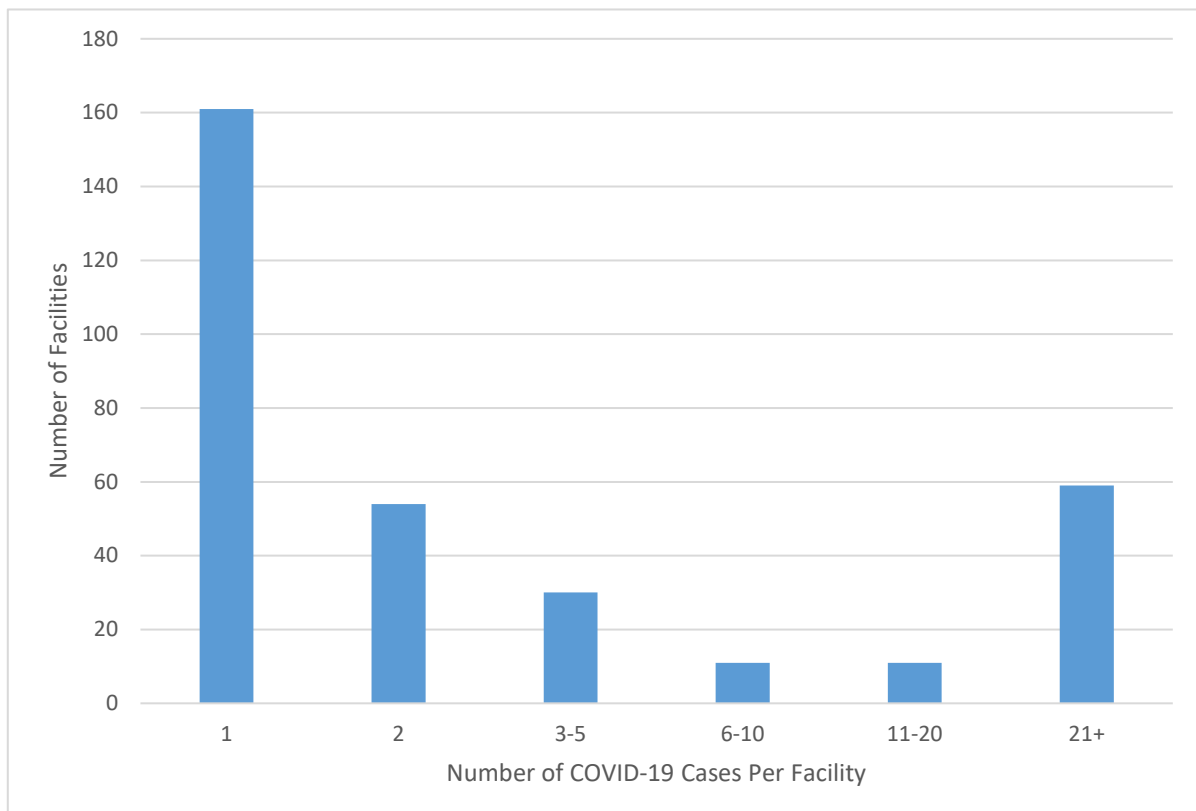

Professor Paul Kelly on 19 August 2021 extended the current Hotspot for the purposes of Commonwealth support for all LGAs within New South Wales, until 11:59pm on 28 August 2021. This state-wide hotspot declaration has been further extended to 1 October 2021.

Acting Chief Medical Officer Professor Michael Kidd on 21 August 2021 declared the state of Victoria a Hotspot for the purpose of Commonwealth support from 11:59pm on 21 August 2021 until 11:59pm on 2 September 2021. This state-wide hotspot declaration has been extended to 23 September 2021. On 9 September 2021, the Chief Medical Officer, Professor Paul Kelly, lifted the hotspot for all Victorian local government areas, excluding those in Greater Melbourne and the City of Greater Shepparton. The Hotspot will remain in place in these areas until 23 September 2021.

Professor Kelly declared on 12 August that the Australian Capital Territory (ACT) a Hotspot for the purpose of Commonwealth support from 11:59pm on 12 August 2021, for an initial period of 7 days until 11:59pm on 19 August 2021. This Territory-wide hotspot declaration has been extended to 17 September 2021. This has been further extended to 1 October 2021.

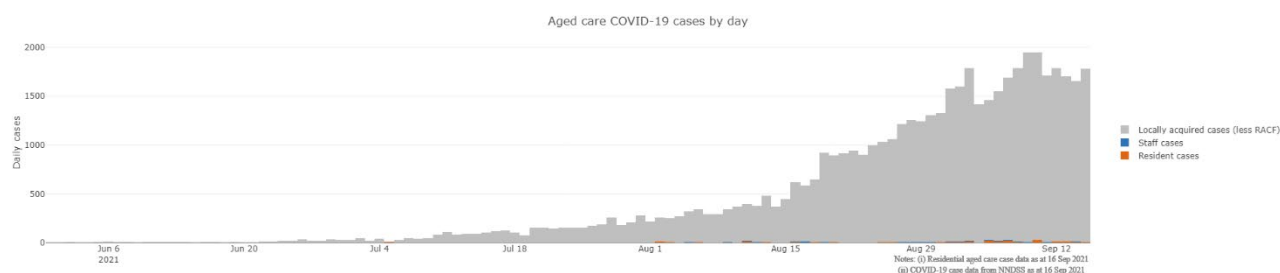

Declaring a hotspot for Commonwealth support triggers additional supports, such as the Support for Aged Care Workers in COVID-19 (SACWIC) grant to support providers to implement single site working arrangements in specified locations within the hotspot area and in areas in close proximity to the hotspot area.

Figure 1: Distribution of Australian residential aged care facilities by total number of cases of COVID-19 (includes staff and resident cases)

Of the 326 residential aged care facilities that have had a case(s) of COVID-19, 161 facilities (49.3 per cent) have had a single case of COVID-19. As at 17 September 2021, 90 per cent of all residential aged care facilities have had no cases of COVID-19 in residents or staff.

Figure 2: Number of daily reported COVID-19 cases in Australian residential aged care facilities overlayed with national locally acquired cases⁵.

International comparisons

During the COVID-19 pandemic, no country has been able to avoid outbreaks or deaths in residential aged care when there has been widespread community transmission.

The Australian death rate is 0.38 per cent (3.8 in 1,000) against the total number of residential aged care beds across the country.

By comparison, Canada has experienced more than 22 times the number of deaths in care homes than Australia as at 14 September 2021.

- As at 14 September 2021, Canada had experienced 27,141 deaths. This includes 15,285 deaths at residential in care homes (or 57 per cent).
- 63 per cent of all aged care homes in Canada have had reported cases of COVID-19 in residents or staff (compared to 10.7 per cent in Australia).

Workforce in active residential aged care outbreaks

As at 10 September 2021, workforce surge staff have around 43,000 shifts in aged care services impacted by COVID-19 and deployed over 4,600 individual workers, including GPs, nurses, care workers, allied health workers, executive and ancillary staff. This includes:

Table 2: Workforce resources supplied to residential aged care facilities

Agency	Resources Supplied (as at 10 September 2021)
State and NACER (National Aged Care Emergency Response) Teams	<p>Tasmanian Government: 7 clinical and 2 support staff.</p> <p>Western Australian Government: 19 clinical personnel and 4 support staff.</p> <p>South Australian Government: 18 clinical personnel and 4 support staff.</p> <p>12 NACER teams (70 personnel) have been deployed.</p> <p>The deployment of State and NACER teams is now complete.</p>

⁵ National daily cases sourced from NNDSS data as at 17 September 2021 and are filtered to locally acquired cases. Case numbers reflect the date of reporting which may differ to diagnosis date. Residential aged care facility staff and resident data sourced from the Department of Health Aged Care COVID Liaison Team. Totals reflect the date of case report and may be affected by delayed reporting.

'RACF' refers to cases in residential aged care facilities (staff and residents)

Agency	Resources Supplied (as at 10 September 2021)
Recruitment, Consulting, and Staffing Association (RCSA)	Staff supplied to fill 28,886 shifts.
Healthcare Australia	Staff supplied filled 5,332 shifts for workforce surge and 2,295 shifts for NACER teams.
Mable	Supplied 130 staff to fill 2,711 shifts.
Aspen Medical	Supplied 283 staff to fill 847 roles including clinical first responders.
Health X	Supplied 43 staff to fill 2,336 shifts.
Torrens Health	Supplied 1,248 shifts in surge workforce roles and 1,270 shifts as Residential Aged Care visitation Assistants (RACVAs).
Residential Aged Care Visitation Assistant (RACVA)	RACVAs completed 1,270 shifts.

Provision of personal protective equipment (PPE)

A range of resources and online training on the use of PPE is available on the Department's website for aged care workers.

Since March 2020, the Commonwealth Government has been working with state and territory governments to ensure aged care facilities have sufficient PPE. PPE is dispatched both directly from the National Medical Stockpile (NMS) and by jurisdictions on the NMS' behalf, depending on the specific circumstances.

As at 13 September 2021, the NMS has provided aged care facilities with approximately:

- 21 million masks
- 5 million gowns
- 15 million gloves
- 5 million goggles and face shields
- 90,000 bottles of hand sanitiser

The NMS remains well positioned to respond rapidly to critical shortages of PPE and other medical supplies anywhere in Australia. This includes a series of bulk dispatches of personal protective equipment (PPE) intended to avert any potential critical supply shortages, as well as urgent deployments to organisations and individuals at risk of exposure to COVID-19.

Testing of aged care residents and staff

The Australian Government has engaged Sonic Healthcare to provide a dedicated pathology service for the testing of suspected cases of COVID-19 in residential aged care facilities. The service is intended to supplement existing public health pathology services in aged care through the provision of services from the private sector as required. Testing regimens for residents and staff at aged care facilities that experience a COVID-19 outbreak is based on advice from the relevant Public Health Unit.

As at 14 September 2021, under contract with the Commonwealth, Sonic Healthcare has conducted 622,912 COVID-19 tests at 2,635 unique residential aged care facilities (RACFs) nationally. Of the 622,910 tests conducted 3,131 have been positive.

Rapid Antigen Testing in Aged Care Facilities

The Australian Government is initially making rapid antigen testing (RAT) available to the following services and providers in high-risk (LGAs) of concern across Greater Sydney and Western New South Wales (NSW):

- residential aged care (including over 380 Residential Aged Care Facilities, Multi-Purpose Services, and the National Aboriginal and Torres Strait Islander Flexible Aged Care Program)
- home care
- short-term restorative care
- services delivered through the Commonwealth Home Support Program.

As of 17 September 2021, a total of **683,700 RAT tests** have been delivered from the National Medical Stockpile (NMS), for an initial 6 weeks supply, to 199 residential aged care facilities in NSW, so they can screen workers and visitors (not residents), on a voluntary basis. More information about this program is available at the Department of Health Website - [Rapid antigen testing in aged care | Australian Government Department of Health](#)

Eligible aged care services in LGAs of NSW as at 17/9/21	Total
Residential aged care facilities (RACFs) Greater Sydney	347
Residential aged care facilities (RACFs) Western NSW	33
Other aged care settings (including Home care and Commonwealth Home Support Programme)	500
Total number of eligible aged care services	880

In addition, the Department is concurrently running a RAT pilot program in residential aged care settings. Phase 1 of the pilot commenced on 16 August 2021 in COVID-19 affected areas in Greater Sydney. Ten facilities have started on the pilot. The pilot will be used to inform decisions around scaling and expansion into other settings. As of 17 September 2021, a total of 17,987 RAT tests have been delivered to facilities that have agreed to participate in Phase 1 of the pilot (4 weeks supply).

Additional sites are being canvassed following approval to expand and extend the pilot to a further 70 sites for a further eight (8) weeks.

Vaccination in Residential Aged Care Facilities

As at 17 September 2021, a total of 326,768 doses have been administered to residents in residential aged care facilities.

All 883 facilities across NSW have received both a dose 1 and dose 2 Commonwealth in reach vaccination clinic.

The Commonwealth is actioning roving clinics in 23 LGA's within Sydney effected areas. There are 271 facilities receiving clinics, which offer vaccine to any residents and staff yet to receive a vaccine. The Commonwealth in-reach vaccination program has delivered 1,649 roving clinics to provide make up doses to residents and staff who require vaccination.

As at 17 September 2021, 269 facilities have received a third dose clinic and 267 a fourth dose clinic

Infection control and audits

The Aged Care Quality and Safety Commission (Commission) conducted an infection control monitoring (ICM) program in all Australian jurisdictions, working in partnership with local health authorities. This program was in addition to the Commission's usual assessment and auditing program, and included spot checks to residential aged care services, without an outbreak, to check compliance with PPE and infection control arrangements. The purpose of the visit was to observe infection control practices, to ensure that staff, management and visitors were adhering to safe personal protective equipment protocols and to safe infection control arrangements as required under the quality standards.

As at 16 September 2021, the Commission has undertaken 2,864 spot checks to observe infection control practices and PPE protocols in residential aged care facilities. The Commission is transitioning to a COVID-normal regulatory response and has ICM Spot Check Visit program. ICM spot check visits will no longer be undertaken as separate activities and will instead be undertaken within the Commission's usual regulatory operations.

All residential aged care facilities are required to engage an onsite clinical lead to provide leadership and increase capacity in relation to infection prevention and control. The Australian Government is providing a second payment of the COVID-19 supplement to assist facilities in meeting the additional costs of preparing for and responding to COVID-19.

In addition, under the Commonwealth-State Plan to boost aged care preparedness, states and territories are complementing the activity being undertaken by the Commission through additional site visits by state health services at the local level, which includes work relating to infection prevention and control (see Table 3 below). These visits are strengthening state health service relationships with local aged care services as part of the standing up of joint health aged care emergency response centres in each jurisdiction.

The Australian Government is working collaboratively with the states and territories to further bolster infection prevention and control through high quality face-to-face training in the aged care sector. In particular, the Government has committed \$57.8 million to fund states and territories to deliver additional targeted infection prevention and control (IPC) training to enhance RACF staff IPC skills; and undertake prevention, preparedness and response activities to address a COVID-19 outbreak in RACFs, including supporting RACFs to uplift IPC capacity by providing IPC training.
