## COVID-19 VACCINATION

**Keep your disability workforce up to date by circulating this alert widely in your organisation**

# Disability provider alert

6 September 2021

## Information on current hubs offering vaccination services

There are many vaccination clinics/hubs now operating across states and territories.

A listing of all clinics/hubs with publicly available booking information can be found at the end of this alert. [Click here to see the list and make a booking.](#)

If you have a vaccination clinic/hub that we can promote please email our inbox: [COVID19VacTFDisabilityServices1A@Health.gov.au](mailto:COVID19VacTFDisabilityServices1A@Health.gov.au) so that we can include it in this publication.

Please distribute this information to your workforce.

## [www.australia.gov.au](http://www.australia.gov.au)

The [Australia.gov.au](http://Australia.gov.au) website is a single source of information about coronavirus.

As announcements are made by government or its agencies, they can be found on this site.

The site includes the national Vaccine Eligibility Checker. As hubs and clinics are added the site is updated. It continues to be the only way to compare clinic types, check availability, and find and book an appointment in one place.

## No Fault COVID-19 Indemnity Scheme

From 6 September Australians who suffer injury and loss of income due to their COVID-19 vaccine will be able to register their intent to claim from the COVID-19 vaccine claims scheme [webpage](#).

The COVID-19 Vaccine Claims Scheme offers protection to Australians receiving a TGA approved COVID-19 vaccine, irrespective of where that vaccination occurs. The scheme also ensures protection for health professionals administering vaccines.

## More support for NDIS participants to attend COVID-19 vaccination appointments

To encourage vaccinations, a temporary national support payment of \$150 per participant is available for disability providers to assist National Disability Insurance Scheme (NDIS) participants. Supported Independent Living participants eligible within Phase 1a to attend offsite vaccination locations – including Commonwealth vaccination hubs, state clinics and GPs.

On 1 September, Minister for the NDIS Senator the Hon Linda Reynolds CSC **announced** an extension to this initiative to include additional provider registration groups to help ensure that more NDIS participants are supported to receive their vaccination.

More information about this support payment, including a list of the additional provider registration groups who can claim the payment, can be found at [For providers - coronavirus \(COVID-19\) | NDIS](#)

## COVID-19 vaccination – Disability provider kit

A set of resources designed to help disability providers promote COVID-19 vaccination to their employees is now available on the [Department of Health website](#).

The resources are designed to help disability service providers in their important role ensuring a safe rollout of COVID-19 vaccines to [people with disability](#) and [disability workers](#).

## Vaccination deadline extended for authorised workers from areas of concern in NSW

The NSW Government has announced that authorised workers from local government areas (LGAs) of concern now have until the end of the day on 19 September 2021 to get vaccinated to allow them to continue to work outside of the LGA they live in, provided they have booked their COVID-19 vaccination by the end the day on Wednesday 8 September 2021.

The extended deadline means authorised workers from the LGAs of concern must have received at least one dose of a COVID-19 vaccine by the end of the day on Sunday 19 September to continue to work outside the LGA they live in from 20 September.

Authorised workers who are not yet vaccinated will have until the end of Wednesday 8 September 2021 to book their vaccination. From 9 September, authorised workers will be required to carry evidence of their booking if they wish to leave their LGA for work.

The requirement also applies to a relevant care worker aged 16 and over whose place of residence or place of work is in an LGA of concern. This includes those who work in an early education and care facility or who provide disability support services.

[Click here](#) to see the press release for further details including access to priority bookings.

## Resources to support people getting vaccinated

The Department of Health encourages disability providers to have vaccination resources available in **Easy Read** format and in **other languages** for people getting vaccinated. These resources cover all aspects of the vaccination process including preparing for COVID-19 vaccination and the period after the COVID-19 vaccination. You can download and print these from the Department of Health website.

For more information call the National coronavirus and COVID-19 vaccination helpline on 1800 020 080.
