- To provide comparability of listed prices across states and territories, median prices for metropolitan Aged Care Planning Regions (ACPR) are shown, providing a representative ACPR for each state and territory.
- Figures reflect what providers list in the My Aged Care Service Finder for prices charged per service type. The provider may not actually currently deliver services to a care recipient in the location but are included if in My Aged Care they advertise as being able to deliver services in the location.
- Figures for staff travel costs and exit amounts are represented in a different format from the May 2021 figures, as this update aims to provide transparency on the percentage of providers that publish the amounts, plus the median amounts for those that publish figures.
