BE COVIDSAFE

COVID-19 outbreaks in Australian residential aged care facilities

National snapshot

As at 8:00am on 23 December 2021 there are 385 active cases of COVID-19 related to aged care across 105 residential aged care facilities.

Table 1: Aged Care COVID-19 data as at 0800 of 17 December 2021[1]

Active outbreaks	105
Active resident cases	196
Active staff cases	189
Deaths this calendar year	219[2] [3]
Total number of residential aged care facilities that have had an outbreak	521
Total number of outbreaks at residential aged care facilities	635
Number of residential aged care facilities with resolved outbreaks	407 (553 outbreaks closed)
Number of residential aged care facilities with resolved outbreaks with only one case (resident or staff member) of COVID-19	309
Total resident cases	3,764
Recovered resident cases	3,507
Total staff cases	3,184
Recovered staff cases	2,982

[1] Includes transition care

[2] In New South Wales, COVID-19 death is defined as a death in a confirmed case unless there is a clear alternative cause of death that cannot be related to COVID-19. There should be no period of complete recovery from COVID-19 between illness and death.

[3] *The Victorian Department of Health and Human Services defines a COVID death as any death that occurs within 28 days of a positive COVID test result.*
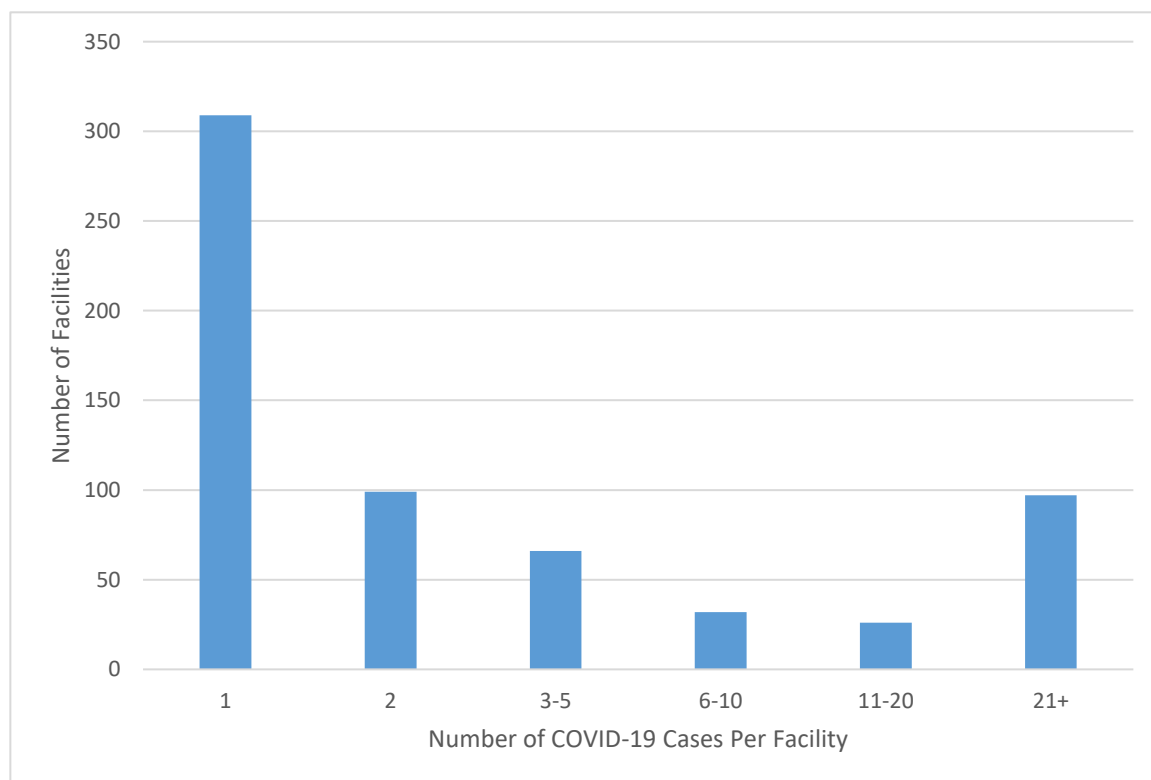

Analysis

Current situation in Australia

As at 12:00 hrs 23 December 2021 there has been a total of 264,917 cases of COVID-19 reported, including 37,206 active cases and 2,162 deaths in Australia.

As at 8:00 am 23 December 2021 there are 52 active outbreaks in Australia associated with a single COVID-19 positive case, 38 in New South Wales, 7 in Victoria, 3 in Queensland, and 4 in South Australia.

In addition there are 53 outbreaks in Australia associated with a more than one COVID-19 positive case, 27 in NSW, 19 in Victoria, and 7 in SA. Details of of outbreaks associated with more than one COVID case can be found below in Appendix 1: National residential aged care services with two or more positive COVID-19 cases.

Joint arrangements are in place in all states and territories with active outbreak sites to support facilities with outbreaks and additional support for State emergency operation centres is being provided as the need arises. In Victoria, the Victorian Aged Care Response Centre is also fully operational, with Commonwealth and Victorian Government officials working closely together in a coordinated effort to respond to aged care outbreaks across the state.
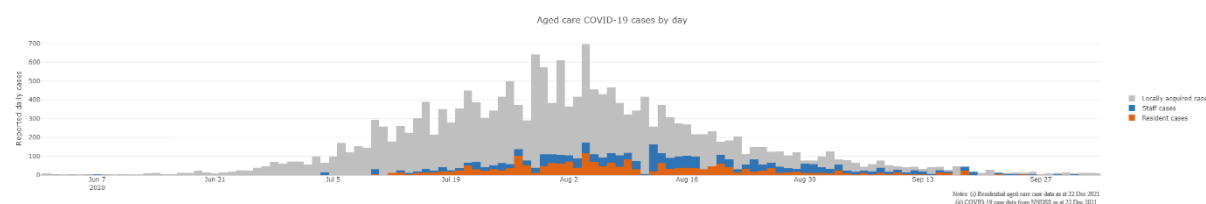

Figure 1: Distribution of Australian residential aged care facilities by total number of cases of COVID-19 (includes staff and resident cases)

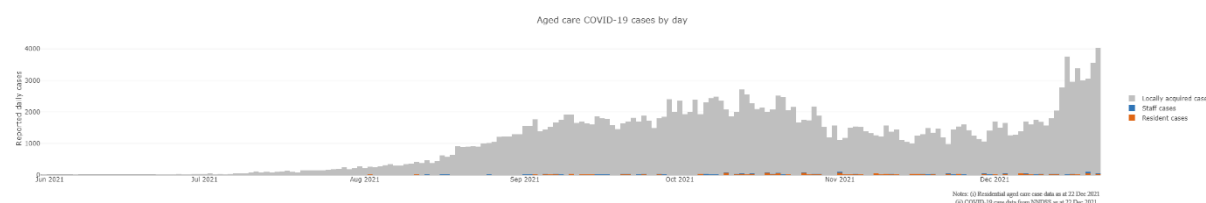

Of the 635 outbreaks in residential aged care facilities, 346 (54 per cent) involved a single case of COVID-19. As at 23 December 2021, 81 per cent of all residential aged care facilities have had no cases of COVID-19.

Figure 2: Number of daily reported COVID-19 cases in Australian residential aged care Facilities overlayed with national locally acquired cases[4].

June to October 2020

June to December 2021

International comparisons

During the COVID-19 pandemic, no country has been able to avoid outbreaks or deaths in residential aged care when there has been widespread community transmission.

The Australian death rate is 0.49 per cent (4.9 in 1,000) against the total number of residential aged care beds across the country.

By comparison, Canada has experienced over 17 times the number of deaths in care homes than Australia as at 21 December 2021.

- As at 21 December 2021, Canada had experienced 29,972 deaths. This includes 50 per cent of all aged care homes in Canada have had reported cases of COVID-19 in residents or staff (compared to 19 per cent in Australia).
- 15,707 deaths at residential in care homes (or 53 per cent).

Workforce in active residential aged care outbreaks

As at 23 December 2021, workforce surge staff have filled around 58,000 shifts in aged care services impacted by COVID-19, these sifts include roles for GPs, nurses, care workers, allied health workers, executive and ancillary staff. This includes:

Table 2: Workforce resources supplied to residential aged care facilities

Agency	Resources Supplied (as at 23 December 2021)
State and NACER (National Aged Care Emergency Response) Teams	Tasmanian Government: 7 clinical and 2 support staff. Western Australian Government: 19 clinical personnel and 4 support staff. South Australian Government: 18 clinical personnel and 4 support staff. 12 NACER teams (70 personnel) have been deployed.

---

[4] National daily cases sourced from NNDSS data as at 16 December 2021 and are filtered to locally acquired cases. Case numbers reflect the date of reporting which may differ to diagnosis date. Residential aged care facility staff and resident data sourced from the Department of Health Aged Care COVID Liaison Team. Totals reflect the date of case report and may be affected by delayed reporting.

'RACF' refers to cases in residential aged care facilities (staff and residents)

3

Agency	Resources Supplied (as at 23 December 2021)
	The deployment of State and NACER teams is now complete.
Recruitment, Consulting, and Staffing Association (RCSA)	Staff supplied to fill 37,328 shifts.
Healthcare Australia	Staff supplied filled 6,133 shifts for workforce surge and 2,295 shifts for NACER teams.
Mable	Supplied 130 staff to fill 2,711 shifts.
Aspen Medical	Supplied 283 staff to fill 1,219 roles including clinical first responders.
Health X	Supplied 97 staff to fill 6,240 shifts.
Torrens Health	Supplied 2,664 shifts in surge workforce roles.
Residential Aged Care Visitation Assistant (RACVA)	RACVAs completed 1,248 shifts.

Provision of personal protective equipment (PPE)

A range of resources and online training on the use of PPE is available on the Department's website for aged care workers.

Since March 2020, the Commonwealth Government has been working with state and territory governments to ensure aged care facilities have sufficient PPE. PPE is dispatched both directly from the National Medical Stockpile (NMS) and by jurisdictions on the NMS' behalf, depending on the specific circumstances.

As at 23 December 2021, the NMS has provided aged care facilities with approximately:

- 23 million masks
- 7 million gowns
- 20 million gloves
- 6 million goggles and face shields
- 100,000 bottles of hand sanitiser

The NMS remains well positioned to respond rapidly to critical shortages of PPE and other medical supplies anywhere in Australia. This includes a series of bulk dispatches of personal protective equipment (PPE) intended to avert any potential critical supply shortages, as well as urgent deployments to organisations and individuals at risk of exposure to COVID-19.

Testing of aged care residents and staff

Rapid Antigen Testing in Aged Care Facilities

The Australian Government, through the Department of Health, is making available COVID-19 rapid antigen testing (RAT) kits to residential aged care facilities and short-term restorative care (aged care services) in high transmission-risk areas, to help prevent and

contain outbreaks. The program consists of a pilot as well as a concurrent broader rollout across New South Wales (NSW), Victoria (Vic), Australian Capital Territory (ACT), Northern Territory (NT), and a first site in Queensland (Qld).

As of 21 December 2021, a total of 2,946,655 **RAT kits** had been delivered or were scheduled for delivery from the National Medical Stockpile (NMS) to 413 aged care services in NSW, 292 aged care services in Vic, 2 aged care services in the ACT, 4 aged care services in the NT and 1 aged care service in Qld (**712 facilities in total**), so they can regularly screen workers and visitors (not residents), on a voluntary basis, and when applicable, help them contain an outbreak. Over 1.6 million RAT tests have been delivered in NSW, over 1.2 million in Vic, over 6,900 in the ACT, 2,100 in the NT, and this week over 3,000 RAT tests were sent to Qld.

RAT tests may be used to screen residents in some circumstances, such as the initial response to outbreaks in aged care services, as required. More information about this program is available at the Department of Health Website - https://www.health.gov.au/initiatives-and-programs/rapid-antigen-testing-for-aged-care

Aged Care Services - Snapshot	NSW	VIC	ACT#	NT	QLD#	Total
Number of aged care services operating in ACT, NSW, Vic, NT and Qld^:	949	809	26	30	525	2,339
Number of aged care services that have participated in the program^ This represents 31% of all aged care services across ACT, NSW, Vic, NT and Qld.	413	292	2	4	1	712
Number of tests delivered from the NMS*	**1,650,014**	**1,284,341**	**6,925**	**2,100**	**3,275**	**2,946,655**

Part of the initial response to outbreaks experienced by ACT and Qld residential aged care facilities

^ Includes residential aged care (including MPS and NATSIFAC) and short-term restorative care

* Tests to be made available from the National Medical Stockpile (NMS) to residential aged care facilities located within selected SA3s in NSW and VIC, or facilities experiencing an outbreak (e.g. ACT and Qld sites).

State	Eligible high transmission-risk areas†
NSW	Auburn, Bankstown, Bayside, Botany, Bringelly-Green Valley, Canterbury, Eastern Suburbs – North, Eastern Suburbs – South, Fairfield, Marrickville - Sydenham – Petersham, Merrylands-Guildford, Orange, Richmond Valley–Coastal, St Marys, Sydney-Inner City,.
NT	Katherine
Vic	Baw Baw, Brunswick – Coburg, Cardinia, Casey – South, Hobsons Bay, Keilor, Kingston, Manningham – East, Manningham – West, Moreland – North, Mornington Peninsula, Melton - Bacchus Marsh, Surf Coast – Bellarine Peninsula, Tullamarine – Broadmeadows, Whittlesea – Wallan

† Statistical Area Level 3 (SA3)

In relation to the concurrent RAT pilot program, the Department has recently undertaken a 2-Phased RAT pilot in residential aged care settings. Phase 1 of the pilot commenced on 16 August 2021 and included ten facilities located in COVID-19 affected areas in Greater Sydney.

Furthermore, Phase 2 of the pilot, which involved a further 70 facilities from NSW and Vic, was also recently completed with the cut off for final data entries being 26 November 2021. Note that, of the 80 facilities that initially joined the pilot, a total of 11 aged care facilities subsequently withdrew from the pilot. The final evaluation report was received by the Department on 10 December 2021.

Sonic Weekly Testing

As at 21 December 2021, under contract with the Commonwealth, Sonic Healthcare has conducted 1,152,598 COVID 19 tests at 2,770 unique residential aged care facilities (RACFs) nationally. Of the 1,152,598 tests conducted, 5,114 have been positive.

Vaccination in Residential Aged Care Facilities

As at 22 December 2021, a total of 346,195 doses have been administered to residents in residential aged care facilities.

The Australian Government's COVID-19 booster vaccination program for residential aged care facilities has commenced. Consistent with the initial vaccine roll-out to residential aged care, the booster program will start with in-reach clinics, delivered primarily by vaccine administration providers under contract arrangements to the Commonwealth. Boosters can also be delivered by residential aged care facility self-management and GP and pharmacy in-reach clinics.

VAS providers have started scheduling booster clinics at residential aged care facilities due for a booster vaccination during November and December.

Infection control and audits

The Aged Care Quality and Safety Commission (Commission) conducted an infection control monitoring (ICM) program in all Australian jurisdictions, working in partnership with local health authorities. This program was in addition to the Commission's usual assessment and auditing program, and included spot checks to residential aged care services, without an outbreak, to check compliance with PPE and infection control arrangements.

The purpose of the visit was to observe infection control practices, to ensure that staff, management and visitors were adhering to safe personal protective equipment protocols and to safe infection control arrangements as required under the quality standards.

As at 23 December 2021, the Commission had undertaken 2,913 spot checks to observe infection control practices and PPE protocols in residential aged care facilities. The Commission is transitioning to a COVID-normal regulatory response and has ICM Spot Check Visit program. ICM spot check visits will no longer be undertaken as separate activities and will instead progress within the Commission's usual regulatory operations.

All residential aged care facilities are required to engage an onsite clinical lead to provide leadership and increase capacity in relation to infection prevention and control. The Australian Government is providing a second payment of the COVID-19 supplement to assist facilities in meeting the additional costs of preparing for and responding to COVID-19.

In addition, under the Commonwealth-State Plan to boost aged care preparedness, states and territories are complementing the activity being undertaken by the Commission through additional site visits by state health services at the local level, which includes work relating to infection prevention and control (see Table 3 below). These visits are strengthening state health service relationships with local aged care services as part of the standing up of joint health aged care emergency response centres in each jurisdiction.

The Australian Government is working collaboratively with the states and territories to further bolster infection prevention and control through high quality face-to-face training in the aged care sector. In particular, the Government has committed $57.8 million to fund states and territories to deliver additional targeted infection prevention and control (IPC) training to enhance RACF staff IPC skills; and undertake prevention, preparedness and response

activities to address a COVID-19 outbreak in RACFs, including supporting RACFs to uplift IPC capacity by providing IPC training.

Table 3: Total Quality Assessment and Monitoring Activities with residential services (including IPC), by type and month 1 December 2020 – to 16 December 2021
