We are a Pfizer COVID-19 vaccination clinic

Comirnaty (Pfizer) is a mRNA vaccine that can prevent people from becoming sick from COVID-19.

The Therapeutic Goods Administration (TGA) has found the vaccine meets the required standards of safety, quality and efficacy and has approved Comirnaty (Pfizer) for people aged 5 years and older.

Two doses given 3-6 weeks apart, or 8 weeks apart for 5 to 11 year olds, are needed for the vaccine to be fully effective.

Talk to your doctor to find out if Comirnaty (Pfizer) is right for you.
