\*National population will not equal sum of listed jurisdictions due to a small number of people counted in national population residing in some 'other' territories. Due to data revisions Singapore has been removed. Sum of state doses will not add to national total as some records are unable to be geocoded to a State or Territory. ### About this data

- Ordered – Total doses delivered to sites. Based on logistics provider data. This figure includes doses allocated for administration in the coming week.
- Available – total doses that could have been administered to date, less doses re-distributed from States & Territories to Primary Care or Aged Care & Disability (i.e. does not include those deliveries recently received, and intended for use in the coming week).
- Administered – Doses administered as at 26 December 2021.
- The dose utilisation is calculated based on the total doses administered and a small % wastage in line with international standards in relation to total available doses.
- For Aged Care & Disability, the doses available for administration is for the full period (Weeks 1-44).
- Aged Care & Disability utilisation is not provided as the in-reach rollout is demand-based, with vaccines ordered based on resident numbers.
