**REMINDER:** Think before you click! This email originated from outside our organisation. Only click links or open attachments if you recognise the sender and know the content is safe.

Dear Lucy,

Will we be receiving a response today? It has been 10 days since our first request.

I also notice the Department is two days overdue publishing its VOC update on the website.

As the former Head of Strategy and Communications to the Federal Health Minister, I'm concerned for the Department this lack of response and failure to publish will be seen as the Federal Government – namely the Minister – either not knowing the answers to a simple question, or worse, be seen to be deliberately refusing to answer, as occurred with the aged care vaccinations in senate estimates. Particularly if we're forced to advise this position to the media. The other alternative is we're forced to ask these questions via media or political channels, but that means we can't constructively work with the department on any analysis, follow up or outcomes.

I feel we have been very generous and reasonable. Please advise today how you would like to proceed. No response will be taken as a preference for having this information requested through media and political channels.

Cheers,

tb

Ps. here is our request reposted for convenience.

To improve the speed of our request, please find the below table for convenience taken from the VOC weekly updates. If the below information is available before 26/4 then that would be appreciated. Given it's available data, I'd appreciate a response by COB tomorrow (Friday 4/6/2021)

	Administered		Distributed		Released	
	Pfizer	AstraZeneca	Pfizer	AstraZeneca	Pfizer	AstraZeneca
7/06/2021						
31/05/2021					352,170	1,007,600
24/05/2021					352,170	1,019,100

17/05/2021	351,000	1,030,600
10/05/2021	351,000	736,900
3/05/2021	173,600	707,300
26/04/2021	173,000	707,000

Hi Lucy,

Can I please confirm acknowledgement of our email below and whether we will be receiving the requested information this morning, given you did not meet our requested COB deadline on Friday, noting your initial response did not answer our question in good faith, hence the need for us to reframe it below.

We are happy to work constructively with you and please feel free to give me a call on 0427 063 150, noting it has been 8 days since our first request.

Cheers, tb

Thanks Lucy- but that doesn't answer our question. what is the breakdown of the 2.5m surplus. Get [Outlook for Android](#)

**From:** COVID19VaccineOperationsCentre <[COVID19VaccineOperationsCentre@Health.gov.au](mailto:COVID19VaccineOperationsCentre@Health.gov.au)>

**Sent:** Thursday, June 3, 2021 4:49:00 PM

**To:** Troy Bilborough <[troy.bilborough@provocate.com.au](mailto:troy.bilborough@provocate.com.au)>

**Subject:** RE: Request: Vaccine Surplus Breakdown [SEC=OFFICIAL]

Good afternoon Troy,

As at 3rd June, the rate of administering the vaccines between the AstraZeneca and Pfizer vaccines has been, 67% AstraZeneca vaccine and 33% Pfizer vaccine. The Administration and utilisation slide on the [Department of Health website](#) provides an indicative estimate of dose utilisation across both Pfizer and AstraZeneca vaccines.

Kind regards,

**Lucy S**

Hello Health Media Team,

I hope this finds you well. Quick question.

On page 7 of the Dept of Health Weekly COVID update, there reports to be a

- 6.41m vaccinations made available
- 4.24m vaccinations administer
- 2.17 million surplus vaccinations

Could you please provide us with the breakdown of these numbers (or best guess estimates) of Pfizer vs AstraZeneca? <https://www.health.gov.au/sites/default/files/documents/2021/05/covid-19-vaccine-rollout-update-31-may-2021.pdf>

To help, as stated in the Dept's last VOC weekly update on 25<sup>th</sup> May:

"Last week, 352,170 doses of Pfizer and 1,019,100 doses of AstraZeneca were released. Over the coming days, the Therapeutic Goods Administration will conduct sample testing of 352,170 doses of Pfizer vaccine which arrived in Australia last night, along with another 1 million doses of AstraZeneca produced onshore by CSL, prior to releasing the vaccines for distribution.

<https://www.health.gov.au/sites/default/files/documents/2021/05/covid-19-vaccine-rollout-update-31-may-2021.pdf>

Given the above, I imagine the figures are easily accessible and at hand. A response by COB today would therefore be much appreciated. Happy to link up with someone in the Department direct if that is quicker.

Cheers,

tb
