BE COVIDSAFE

COVID-19 outbreaks in Australian residential aged care facilities

National snapshot

As at 8:00am on 14 January 2022 there are 7,014 active cases of COVID-19 related to aged care across 1,107 residential aged care facilities.

Table 1: Aged Care COVID-19 data as at 0800 of 14 January 2022[1]

Active outbreaks	1,107
Active resident cases	3,208
Active staff cases	3,806[7]
Deaths since July 2021	278 [2][3][4]
Total number of residential aged care facilities that have had an outbreak	1,203
Total number of outbreaks at residential aged care facilities	1,477
Number of resdential aged care facilities with resolved outbreaks	431 (659 outbreaks closed)
Total resident cases	7,321
Recovered resident cases	2,309 [5]
Total staff cases	7,502
Recovered staff cases	2,921 [6]

---

[1] Includes transition care
[2] This includes 255 deaths in 2021 and 37 in 2022.
[3] In New South Wales, COVID-19 death is defined as a death in a confirmed case unless there is a clear alternative cause of death that cannot be related to COVID-19. There should be no period of complete recovery from COVID-19 between illness and death
[4] *The Victorian Department of Health and Human Services defines a COVID death as any death that occurs within 28 days of a positive COVID test result*
[5] Historically this figure has included residents who may have passed away or recovered. Not all recovered cases are formally advised as recovered and therefore are not captured in Government data systems. To ensure accuracy, this figure has been adjusted to only reflect the actual number of cases officially reported as recovered through Government systems.
[6] Historically this figure has included staff who may have recovered. Not all recovered cases are formally advised as recovered and therefore are not captured in Government data systems. To ensure accuracy, this figure has been adjusted to only reflect the actual number of staff cases officially reported as recovered through Government systems.
[7] Based on retrievable data.

Analysis

Current situation in Australia

Joint arrangements are in place in all states and territories with active outbreak sites to support facilities with outbreaks and additional support for State emergency operation centres is being provided as the need arises. In Victoria, the Victorian Aged Care Response Centre is also fully operational, with Commonwealth and Victorian Government officials working closely together in a coordinated effort to respond to aged care outbreaks across the state.

As at 12:00 hrs 14 January 2022 there has been a total of 1,124,138 cases of COVID-19 reported, including 696,699 active cases and 2,465 deaths in Australia.

There are 1,107 active outbreaks in residential aged care facilities nationally - 425 in NSW, 356 in Victoria, 155 in SA and 133 in QLD, 22 in TAS, 1 in NT, and 15 in the ACT.

There has been a total of 3,208 residents and 3,806 staff cases associated with active outbreaks[4]. Of the residents 1,530 are in NSW, 800 in Victoria, 462 in SA 367 in QLD, 45 in TAS, 5 in the NT and 0 in the ACT. These figures include those who have recovered and those who have passed away. Of the staff 1,580 are in NSW, 907 in Victoria, 582 in SA 620 in QLD, 108 in TAS, 4 in the NT and 4 in the ACT.

These figures include those who have recovered and those who have passed away.

Figure 1: Number of daily reported COVID-19 cases in Australian residential aged care Facilities overlayed with national locally acquired cases[57]

June to October 2020
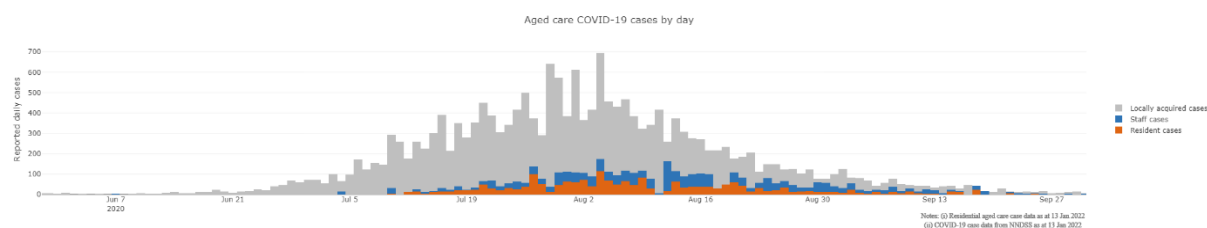

June to December 2021

---
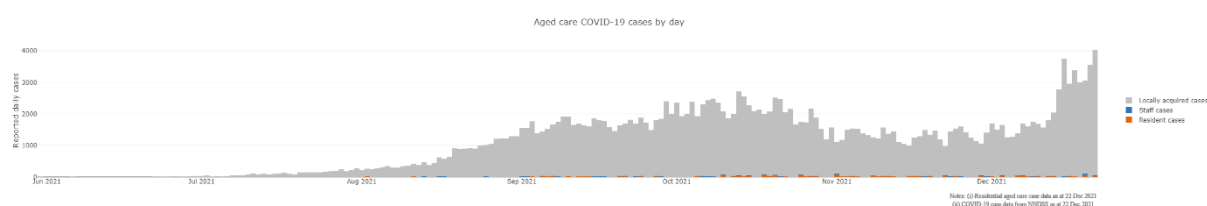

[4] IT issues have impacted this week's data extraction from case management systems these statistics are drawn from information available with verifiable and retrievable data,

[7] National daily cases sourced from NNDSS data as at 16 December 2021 and are filtered to locally acquired cases. Case numbers reflect the date of reporting which may differ to diagnosis date. Residential aged care facility staff and resident data sourced from the Department of Health Aged Care COVID Liaison Team. Totals reflect the date of case report and may be affected by delayed reporting.

'RACF' refers to cases in residential aged care facilities (staff and residents)

January 2022

Aged care COVID-19 cases by day
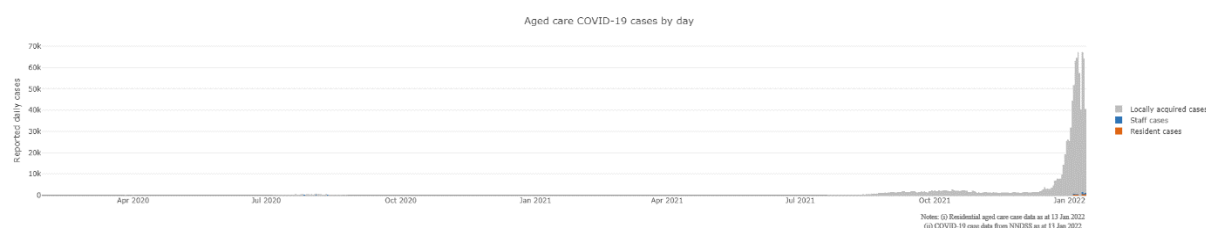

International comparisons

During the COVID-19 pandemic, no country has been able to avoid outbreaks or deaths in residential aged care when there has been widespread community transmission.

The Australian death rate is 0.55 per cent (5.5 in 1,000) against the total number of residential aged care beds across the country.

By comparison, Canada has experienced over 15 times the number of deaths in care homes than Australia as at 12 January 2022.

- As at 12 January 2022, Canada had experienced 30,714 deaths. This includes 15,876 deaths at residential in care homes (or 52 per cent).

- 54 per cent of all aged care homes in Canada have had reported cases of COVID-19 in residents or staff (compared to 33 per cent in Australia).

Workforce in active residential aged care outbreaks

As at 14 January 2022, workforce surge staff have filled around 60,000 shifts in aged care services impacted by COVID-19, these sifts include roles for GPs, nurses, care workers, allied health workers, executive and ancillary staff. This includes:

Table 2: Workforce resources supplied to residential aged care facilities

Agency	Resources Supplied (as at 14 January 2022)
State and NACER (National Aged Care Emergency Response) Teams	Tasmanian Government: 7 clinical and 2 support staff. Western Australian Government: 19 clinical personnel and 4 support staff. South Australian Government: 18 clinical personnel and 4 support staff. 12 NACER teams (70 personnel) have been deployed. The deployment of State and NACER teams is now complete.
Recruitment, Consulting, and Staffing Association (RCSA)	Staff supplied to fill 39,104 shifts.
Healthcare Australia	Staff supplied filled 6,375 shifts for workforce surge and 2,295 shifts for NACER teams.
Mable	Supplied 130 staff to fill 2,711 shifts.
Aspen Medical	Supplied 283 staff to fill 1,245 roles including clinical first responders.

3

Agency	Resources Supplied (as at 14 January 2022)
Health X	Supplied 94 staff to fill 6,431 shifts.
Torrens Health	Supplied 2,707 shifts in surge workforce roles.
Residential Aged Care Visitation Assistant (RACVA)	RACVAs completed 1,248 shifts.

Provision of personal protective equipment (PPE)

A range of resources and online training on the use of PPE is available on the Department's website for aged care workers.

Since March 2020, the Commonwealth Government has been working with state and territory governments to ensure aged care facilities have sufficient PPE. PPE is dispatched both directly from the National Medical Stockpile (NMS) and by jurisdictions on the NMS' behalf, depending on the specific circumstances.

As at 14 January 2022, the NMS has provided aged care facilities with approximately:

- 23 million masks
- 7 million gowns
- 20 million gloves
- 6 million goggles and face shields
- 100,000 bottles of hand sanitiser

The NMS remains well positioned to respond rapidly to critical shortages of PPE and other medical supplies anywhere in Australia. This includes a series of bulk dispatches of personal protective equipment (PPE) intended to avert any potential critical supply shortages, as well as urgent deployments to organisations and individuals at risk of exposure to COVID-19.

Testing of aged care residents and staff

Rapid Antigen Testing for Aged Care

The Australian Government, through the Department of Health, made COVID-19 rapid antigen testing (RAT) kits available to residential aged care facilities and short-term restorative care (aged care services) in high transmission-risk areas and experiencing outbreaks. Recently, due to rapidly increasing case numbers across most states, delivery to non-outbreak sites has now adapted to a surge approach, aiming to deliver RAT to all RACFs in states that permit RAT use.

Since September 2021, more than 5.6 million RATs have been distributed to aged care facilities and a further 3 million are expected to be distributed in the coming week. More than 78 million have been purchased by the Australian Government and these are being prioritised for aged care.

Sonic Weekly Testing

As at 11 January 2022, under contract with the Commonwealth, Sonic Healthcare has conducted 1,374,586 COVID 19 tests at 2,850 unique residential aged care facilities (RACFs) nationally. Of the 1,374,586 tests conducted, 11,232 have been positive.

Vaccination in Residential Aged Care Facilities

As at 14 January 2022, a total of 433,251 doses have been administered to residents in residential aged care facilities.

The Australian Government's COVID-19 booster vaccination program for residential aged care facilities has commenced. Consistent with the initial vaccine roll-out to residential aged care, the booster program will start with in-reach clinics, delivered primarily by vaccine administration providers under contract arrangements to the Commonwealth. Boosters can also be delivered by residential aged care facility self-management and GP and pharmacy in-reach clinics.

All facilities scheduled for in-reach through VAS providers are expected to receive boosters by the end of January 2022.

Infection control and audits

The Aged Care Quality and Safety Commission (Commission) conducted an infection control monitoring (ICM) program in all Australian jurisdictions, working in partnership with local health authorities. This program was in addition to the Commission's usual assessment and auditing program, and included spot checks to residential aged care services, without an outbreak, to check compliance with PPE and infection control arrangements.

The purpose of the visit was to observe infection control practices, to ensure that staff, management and visitors were adhering to safe personal protective equipment protocols and to safe infection control arrangements as required under the quality standards.

As at 13 January 2022, the Commission had undertaken 2,916 spot checks to observe infection control practices and PPE protocols in residential aged care facilities. The Commission is transitioning to a COVID-normal regulatory response and has ICM Spot Check Visit program. ICM spot check visits will no longer be undertaken as separate activities and will instead progress within the Commission's usual regulatory operations.

All residential aged care facilities are required to engage an onsite clinical lead to provide leadership and increase capacity in relation to infection prevention and control. The Australian Government is providing a second payment of the COVID-19 supplement to assist facilities in meeting the additional costs of preparing for and responding to COVID-19.

In addition, under the Commonwealth-State Plan to boost aged care preparedness, states and territories are complementing the activity being undertaken by the Commission through additional site visits by state health services at the local level, which includes work relating to infection prevention and control (see Table 3 below). These visits are strengthening state health service relationships with local aged care services as part of the standing up of joint health aged care emergency response centres in each jurisdiction.

The Australian Government is working collaboratively with the states and territories to further bolster infection prevention and control through high quality face-to-face training in the aged care sector. In particular, the Government has committed $57.8 million to fund states and territories to deliver additional targeted infection prevention and control (IPC) training to enhance RACF staff IPC skills; and undertake prevention, preparedness and response activities to address a COVID-19 outbreak in RACFs, including supporting RACFs to uplift IPC capacity by providing IPC training.

Table 3: Total Quality Assessment and Monitoring Activities with residential services (including IPC), by type and month 1 December 2020 – to 13 January 2022
