

Australian Government
Operation COVID Shield

LGA Vaccination Rates (AIR Indigenous Population)

05 January 2022

Data caveats:

Note on areas with large remote and very remote areas:

The process of geocoding addresses in very remote areas and remote areas can lead to artificially low vaccine dose count records in those areas (as addresses cannot be 'pinpointed' to a specific client location, and therefore LGA). The areas have been highlighted to indicate they are remote or very remote. For vaccine rates relevant to these areas, please also consult the weekly SA4 data release from Operation COVIDShield. SA4 data is generally of larger population regions, so undercounting of doses has less impact on overall coverage ratios.

Methodology underpinning LGA Remoteness classification:

LGA 'remoteness' is calculated by assigning a modal remoteness value for each LGA, based on where the majority of the population in each LGA live - using 2016 Census meshblock population counts. Remote and Very Remote classifications accord with the same values if using the Modified Monash Model of remoteness.

Population cell values less than 200 have been suppressed for Privacy. Similarly, Coverage rates have been suppressed for regions with populations under 20.

Data as at:
04 Jan. 2022

Australian Capital Territory

Medicare Address ASGS State Name	LGA 2019 Name	Indigenous AIR Population	Indigenous individuals received Dose 1 %	Indigenous individuals received dose 2 %
Australian Capital Territory	Unincorporated ACT	5,592	90.6%	87.8%

State and Local Government Area (LGA) are derived from AIR based on Medicare address for numerator and AIR Population by LGA as denominator.

** = Suppressed to protect privacy. **Shading** denotes LGAs with large 'very remote' and 'remote' areas where geo-coding addresses is difficult, often leading to artificially low counts

Metadata

People with at least one dose. The count of all people who have received at least one dose of an eligible vaccine. People with at least one dose encompasses people fully vaccinated and people with only one dose.

People fully vaccinated. Total people fully vaccinated with 2 doses of the same vaccine type.

AIR Population. A distinct count of persons recorded on the Australia Immunisation Register.

Local Government Area (LGA). Local Government Areas are an ABS approximation of gazetted local government boundaries as defined by each State and Territory Local Government Department. Local Government Areas cover incorporated areas of Australia. Incorporated areas are legally designated parts of a State or Territory over which incorporated local governing bodies have responsibility. The major areas of Australia not administered by incorporated bodies are the northern parts of South Australia, and all of the Australian Capital Territory and the Other Territories. These regions are identified as 'Unincorporated' in the ASGS Local Government Areas structure.

Update Information:

Vaccine data is sourced from the Australian Immunisation Register as at 11:59pm 04 Jan. 2022 including individuals aged 15 and over.

AIR population is sourced from the Australian Immunisation Register as at 11:59pm 04 Jan. 2022 including individuals aged 15 and over.
