Vaccine Operations Centre Data

Novel Coronavirus 2019 (COVID-19) Vaccination Administration

Whole of Government Situation Report

Report Details

Date of Issue	30/07/2021	Version	1.0
Prepared By	s 22	Authorised By	Perdi Mitchell

Report purpose: The Whole of Government Situation Report is intended to provide an overview of the current situation of the COVID-19 vaccination distribution and administration and provides updates on key outcomes, doses administered, vaccination coverage, and the doses in distribution.

COVID-19 Vaccination Summary

Summary of COVID-19 Vaccination Administration (since 21 Feb 2021)

Source: Jurisdictions data is self-reported by the jurisdictions, as at 29th July 2021. Aged Care data is self-reported by the providers, and includes a small amount of disability, as at 29th July 2021. Primary Care data includes GPs, GPRCs, and ACCHs, and is from the Australian Immunisation Register, as at 11:59pm 29th July 2021.

	National	ACT	NSW	NT	QLD	SA	TAS	VIC	WA
Jurisdictions Cumulative Total*	5,215,840	134,095	1,446,995	89,145	899,059	383,791	161,592	1,610,095	491,068
Aged Care Cumulative Total*	518,481	7,807	172,630	3,887	92,305	41,404	18,605	136,310	45,533
Primary Care**	6,271,657	105,271	2,169,935	49,885	1,271,616	433,411	137,491	1,537,061	566,987
Daily Total	210,742	3,894	83,637	2,540	35,785	13,931	4,625	45,938	20,392

Note:

1. **Commercial Provider includes Aspen Medical, Sonic HealthPlus, Health Care Australia, International SOS, Australian Defence Force, Regis Aged Care, Mecwacare, AdventCare, and Estia Health.**
2. **Past 24 hours recorded refers to the number of doses recorded in the AIR within the last 24 hours regardless of the date of vaccination.**
3. **Note: Breakdown by provider type and location excludes a minor number of records currently being investigated.**
4. **Some GPRCs have self-categorised as commercial and, as such, this category includes a significant number of doses performed by those entities.**

On occasion, the cumulative total may not match the previous day's total plus the past 24 hours recorded. For example, a vaccination administered to an individual who is unable to be identified will be counted in the cumulative figure once resolved, but may not be counted in the past 24 hour recorded figure if resolution occurred more than 24 hours after the vaccine was reported.
