MINUTE TO THE SECRETARY

To: Caroline Edwards
SUBJECT COVID-19 Procurement

Purpose

The Primary Care Division is seeking to invoke the human health protection exemption in the Commonwealth Procurement Rules to directly engage Aspen Medical to provide a range of services as part of the response to the Coronavirus outbreak:

Phase 1 - Project Planning, Risk Management and Preparedness to establish up to 3-5 GP Triage/ Respiratory Clinics established at initial GP clinics. To commence immediately.

Phase 2 - National Implementation of Respiratory Clinics across Australia including delivery of infection control training. Timing: Subject to Phase 1 Completion.

Phase 3 – Workforce Surge Capacity. Timing: Likely timeframe to commence in 3 – 4 weeks.

Timing

A risk management workshop is planned for 5pm on Tuesday 10 March 2020 and Aspen would like to have a signed contract in place before that takes place. The financial commitment will only be for Phase 1 and Simon Cotterell, FAS Primary Care Division will exercise the necessary delegations.

Issues/Sensitivities

Exemption under paragraph 2.6 of the Commonwealth Procurement Rules (CPRs)

2.6 These CPRs do not apply to the extent that an *official* applies measures determined by their *Accountable Authority* to be necessary for the maintenance or restoration of international peace and security, to protect human health, for the protection of essential security interests, or to protect national treasures of artistic, historic or archaeological value

The Measures relating to the procurement which require departure from the CPRs are

Phase 1 - Project Planning, Risk Management and Preparedness to establish up to 3-5 GP Triage/ Respiratory Clinics established at initial GP clinics.

Phase 2 - National Implementation of Respiratory Clinics across Australia. Timing: Subject to Phase 1 Completion.

Phase 3 – Workforce Surge Capacity. Timing: Likely timeframe to commence in 3 – 4 weeks.

Consultation

The Department has consulted with Legal Services and Procurement Services.

Recommendation

The Primary Care Division is seeking your approval to:

1. Direct procure Aspen Medical to undertake the services described above, relying on the human health protection exemption from the Commonwealth procurement rules

BY THE DEPARTMENT OF HEALTH

MINUTE TO THE SECRETARY

To: Caroline Edwards

SUBJECT Approval to apply the human health protection exemption of the Commonwealth Procurement Rules for COVID-19 related procurement expenditure

Purpose

To provide you the opportunity to determine that the human health protection exemption (paragraph 2.6) in the Commonwealth Procurement Rules (CPRs) is necessary for procurements under the COVID-19 response.

Issues/Sensitivities

CPR paragraph 2.6 provides a range of broad exemptions from the CPRs. It states relevantly:

These CPRs do not apply to the extent that an *official* applies measures determined by their *Accountable Authority* to be necessary... to protect human health...

This exemption is necessary and appropriate, given the rapidly evolving situation and the Department's requirement to respond, particularly to supply constraints of medical equipment. It would enable officials to secure supplies of goods and services as necessary to ensure human health protection. It would provide coverage to undertake and continue these activities as long as is appropriate.

Departmental officials who undertake exempt procurement activities are still required to meet *Public Governance Performance and Accountability Act 2013* (PGPA Act) obligations to document the process, as well as obtaining the necessary financial approvals, and meet reporting obligations outside the CPRs such as Senate Orders (e.g. Senate Order 13, also known as the "Murray Motion").

The CPRs provide a range of other options through panel or WoAG arrangements, or exemptions for extreme urgency to allow for limited tenders (including single sourcing). The exemption for extreme urgency (CPR Para 10.3 (b.)) sets out:

when, for reasons of extreme urgency brought about by events unforeseen by the relevant entity, the goods and services could not be obtained in time under open tender;

This exemption, when considered with panel arrangements, would cover a large range of procurements. The department has already undertaken a number of CPR compliant procurements in relation to COVID-19. As the situation continues however, it may become more difficult to rely on the extreme urgency exemption.

Should you agree, Financial Management Division (FMD) would work with relevant divisions to prioritise expedient and effective procurement for the protection of human health, whilst promoting other procurement options to ensure CPR compliance, good governance and robust public administration.

FMD will monitor this exemption's use through SAP reporting functionality, and report back to you through the Chief Operating Officer. This will ensure officials are relying on this CPR exemption only when appropriate.

Consultation

The Department's Chief Financial Officer, and the Department of Finance (Finance). Finance advised there is no specific notification requirement to them. Finance recommended the Department maintain clear documentation around the exemption process and procurements relying on exemptions.

Recommendation

Financial Management Division seeks your determination under paragraph 2.6 of the Commonwealth Procurement Rules to exempt procurements to protect human health related to the COVID-19 response.

Approved / Not Approved / Please Discuss / Noted
