

Campylobacteriosis

Australian national notifiable diseases case definition

This document contains the surveillance case definition for campylobacteriosis, which is nationally notifiable within Australia. State and territory health departments use this definition to decide whether to notify the Australian Government Department of Health and Aged Care of a case.

Version	Status	Last reviewed	Implementation date
1.0	Initial case definition	2004	2004

Reporting

Only **confirmed cases** should be notified.

Confirmed case

A confirmed case requires **laboratory definitive evidence** only.

Laboratory definitive evidence

Isolation or detection of *Campylobacter* species.
