COVID-19
VACCINATION

CELEBRATE SAFELY AT COMMUNITY AND RELIGIOUS EVENTS

You can help look after your community by following some simple steps:

Stay home if you feel unwell. Viruses like influenza and COVID-19 can spread easily from person to person.

Practise good hygiene when you're around other people such as washing your hands regularly and covering your mouth when you cough and sneeze.

If you live with someone who has COVID-19, check your local health department's advice for close contacts before leaving the house.

Keep up to date with your COVID-19 vaccinations and get your influenza vaccine.

Stay 1.5 metres away from other people when you can't keep your distance. You may also wish to wear a mask.

For more information about COVID-19 and influenza vaccines, call the National Coronavirus Helpline on 1800 020 080.

For free interpreting services, select option 8.
