Subject: FOR FEEDBACK: Questions & Indicators - CALD Data Working Group - 24 June 2021
[SEC=OFFICIAL]

Dear Members,

Thank you for your participation today. We have put together an outline of the questions, indicators, and considerations which were discussed at today's meeting. For your reference, we have also attached the paper which AIHW has prepared proposing questions and considerations that could be included.

You are invited to provide your comments on the attached compilation of questions, indicators and considerations raised by the group at the meeting today and return them to the Secretariat by **1.20pm on Friday 25 June 2021**. We will share your feedback with the Digital Health Research team to refine a list of indicators based on existing datasets being used in the AIR-MADIP linkage project.

Thank you,

Hello
Is it possible to share the powerpoint presentations that were delivered last Friday at the CALD COVID data working group meeting? There was a lot of information shared and it would be great to have the powerpoint presentations to absorb it all.
Thank you

s47F

Overview of the MADIP

The **M**ulti-**A**gency **D**ata **I**ntegration **P**roject is a partnership among Australian Government agencies to develop a secure and enduring approach for combining nationally important datasets to create a comprehensive picture of Australia over time.

MADIP Uses

- Answer policy questions
- Program evaluation
- Empirical research on socio-economic issues
- **No identification of individuals**
- **Not used for compliance (only for statistical and research purposes)**

MADIP Partner Agencies

Australian Bureau of Statistics
Australian Taxation Office
Department of Health
Department of Social Services
Department of Education
Services Australia

Nationally important datasets

Safe access – the Data Sharing Principles

Five Safes Framework

Safe people

Is the researcher authorised to access and use the data appropriately?

Safe projects

Is the data to be used for an appropriate purpose?

Safe settings

Does the access environment prevent unauthorised use?

Safe data

Has appropriate and sufficient protection been applied to the data?

Safe output

Are the statistical results non-disclosive?

Hi s47F

The changes to the GPRC app should have gone live nationally yesterday. It will take a while for the data to come in, but as it does we can report to the CALD working group if that's requested (I'm not involved with these discussions however that seems to be a good place to review)

With regards to NNDSS data, I'm not involved in this (it's run through the epis in the National Incident Room). They put out fortnightly or monthly reports on COVID epi here:

https://www1.health.gov.au/internet/main/publishing.nsf/Content/novel_coronavirus_2019_ncov_weekly_epidemiology_reports_australia_2020.htm

These are relatively high level and I'm not sure when they intend to analyse data on COB and language spoken at home

With regards to vaccine rollout, I imagine that NNDSS will capture vaccination status on all COVID cases (as this becomes available and with agreement from the jurisdictions) and we will try to capture this in the GPRC app (will require another update but is clearly an important field to capture as it becomes relevant)

Cheers

Hi s47F

Hope that you had a good break too – have to say though that I was subconsciously hoping that COVID would have disappeared by 2021 and unfortunately this doesn't seem to have happened

However one piece of good news is that the developers have got the changes in the GPRC data collection app almost ready to go, and all things being well we should start having collection of these data at the GPRCs as of 27 Jan (next Wednesday). My understanding is that there is a paper about this going to the culturally and linguistically diverse advisory group for your next meeting, which is on Thursday (I think?)

Cheers

Hi s47F

Just following up on our conversation last week – always good to talk data!
As discussed, we are planning to incorporate country of birth and language spoken at home into the data set collected at the GPRCs. This change is now with the developers, and we're aiming (hoping) to have it live by sometime in January. I will keep you updated as to how this goes.
I hope that you have a restful and happy festive season.

Steph

Subject: Culturally and Linguistically Diverse Communities COVID-19 Health Advisory Group meeting [SEC=OFFICIAL]

Good morning/afternoon members,

Thank you for attending the 2 March 2021 meeting of the Culturally and Linguistically Diverse Communities (CALD) COVID-19 Health Advisory Group. Once again, we really appreciated the level of engagement from members along with your feedback and advice. The Advisory Group continues to make a valuable contribution in assisting the Australian Government to undertake the COVID -19 vaccine roll out to culturally, ethnically and linguistically diverse communities.

As agreed at the meeting, the Department of Health organised a meeting to discuss and explore CALD data. This meeting was held on Friday 19 March 2021, an update on the outcomes of this meeting will be provided to the Group in the next meeting.

Thank you for your feedback on the Advisory Group 2 March 2021 meeting communique. The [Communique](#) has now been published.

The meeting outcomes and progress on the action items are attached for your information. The Secretariat is following up on the remaining action items. Apologies for the delay in providing these outcomes, there has been a lot of effort focussed on implementing the outcomes and convening roundtables. Secretariat will endeavour to provide outcomes from the meetings within days of the meeting moving forward.

Next meeting

A placeholder has been sent for 9 April 2021 from 1:00pm to 4:00pm. However this date will need to be changed as we will be hosting the Health Practitioners' Roundtable. An updated placeholder for the next Advisory Group meeting will be sent shortly.

Dear Members,

The CALD Data Discussion Paper, 'Using Data to Better Support Culturally, Ethnically and Linguistically Diverse Communities in Response to COVID-19', was shared with you before the meeting of the CALD Data Working Group on 17 June, and is attached to this email. Members were invited to review and provide comments on the paper to the Secretariat by 9 June. As we haven't yet received comments, you are welcome to provide any feedback by **COB tomorrow, Thursday 15 July**.

We will then update the paper based on your comments and will share it with the broader CALD COVID-19 Health Advisory Group for consideration and discussion at the Advisory Group meeting on 20 July 2021.

Subject: Call for nominations for CALD Data Working Group - first meeting 17 June 2021 [SEC=OFFICIAL]

Dear members,

Since the meeting on 19 March 2021 to discuss the use of available health data to support CALD communities during the COVID-19 pandemic, the CALD Secretariat has been working closely with FECCA to prepare the CALD data discussion paper, 'Using data to better support Culturally, Ethnically and Linguistically Diverse Communities in the Response to COVID-19'.

We are pleased to now invite you to the first meeting of the Data Working Group, which is scheduled for **17 June 2021 from 3pm-4pm**.

The focus of this first meeting will be to discuss the issues and potential next steps identified in the paper relating to the use of data on CALD communities' engagement with the Australian COVID-19 Vaccine Program to ensure equitable access to public health information and COVID-19 vaccines in Australia. The Secretariat has also been working closely with relevant areas across the Department and in other agencies to prepare this paper, and this meeting is an opportunity to share the work that is being done in those areas.

The Data Working Group will meet monthly or as needed. If you are interested in participating in this subgroup, please let us know, and we will share the paper, calendar invitation and agenda with you soon.

Regards,

Dear s47F

I forgot to ask you to please include me in the email with your comments on the paper. I believe s47F doesn't work on Mondays.

Thank you,
s22

Subject: data discussion paper [SEC=OFFICIAL]

Hi s22

Thanks for taking a look and contributing your extensive knowledge on migration data.
Attached is the latest version of the document (although I'm still working on it this morning).

Regards,

s22
