

# Paratyphoid

## Australian national notifiable diseases case definition

This document contains the surveillance case definition for paratyphoid, which is nationally notifiable within Australia. State and territory health departments use this definition to decide whether to notify the Australian Government Department of Health and Aged Care of a case.

Version	Status	Last reviewed	Implementation date
1.0	Initial CDNA case definition	2015	2015

### Reporting

Only confirmed cases should be notified.

### Confirmed case

A confirmed case requires **laboratory definitive evidence** only.

### Laboratory definitive evidence

Isolation or detection of *Salmonella* Paratyphi A or *S. Paratyphi* B (excluding *S. Paratyphi* B biovar Java) or *S. Paratyphi* C.
