

Typhoid fever

Australian national notifiable diseases case definition

This document contains the surveillance case definition for typhoid fever, which is nationally notifiable within Australia. State and territory health departments use this definition to decide whether to notify the Australian Government Department of Health and Aged Care of a case.

Version	Status	Last reviewed	Implementation date
	No change	CDWG 21 October 2011	1 February 2012
1.0	Initial case definition	2004	2004

Reporting

Only **confirmed cases** should be notified.

Confirmed case

A confirmed case requires **Laboratory definitive evidence** only.

Laboratory definitive evidence

Isolation or detection of *Salmonella typhi*.
