

Sector Partners

Meeting: 5 | Meeting date: 22/07/2022

Agenda

- Welcome & introductions
- State of Play
- GPMS update and findings
- Research Questionnaire results
- Demo – How we build an API
- Q&A / Next steps

Discussion Highlights

State of Play

- Endorsed-Terms of Reference now live on the Fortnightly Meetings | Sector Partners SharePoint site
- Link to register for the upcoming Tech Talk (26 July 2pm AEST) published on Homepage | Sector Partners SharePoint site
- New Resources page published on Sector Partners SharePoint site

GPMS update and findings

- Recapped interim findings from second sprint of GPMS co-design sessions
- Sessions have allowed other Digital Transformation project streams to incorporate questions into co-design sessions to ensure the overall provider experience with aged care online systems is considered.

Research Questionnaire results & Demo: How we build an API

- Results playback: 14 responses from providers and ICT suppliers, working on a variety of systems
- Three major themes:
 - Current lack of data integration
 - Duplication of data entry
 - Opportunity to uplift general overall B2G data integrity and security
- Previewed the User Journey demo video: How developers access APIs within the developer portal.

Key outcomes

- COMPLETED ACTIVITY (in meeting): Sector Partners Pulse Check Poll (findings to help inform John Perkin's (group representative) playback session at next Tech Talk)
- NOTE: Tech Talk invitations (26 July) have been sent
- ACTION: Conformance Preview video (published on Resources | Sector Partners SharePoint site)
- NOTE: B2G 90min Developer Portal co-design session invites (targeting the B2G sub-group audience) will be released shortly.

Next Meeting

11am, 22 July 2022
