

# Sector Partners

Meeting: 4 | Meeting date: 8/07/2022

## Agenda

- Welcome & introductions
- State of Play & closing co-design activities
- GPMS Update and demonstration
- Co-design plan and API Lifecycle
- Q&A / Next steps

## Discussion Highlights

### State of Play & Closing co-design activities

- Touched on the Government's five-point plan to improve the quality of care provided to senior Australians, including:
  - Registered nurses in aged care residential facilities 24 hrs/day
  - An expansion of the carer workforce
  - Better remuneration for the aged care sector workforce
  - Better food standards for residents of aged care facilities
  - Greater accountability imposed on aged care providers.

### GPMS Update and demonstration

- Previewed a recap on the first round of GPMS co-design
- Demo: Internal staff provider portal underway in our Agile design, build, and test cycle
- First two UX Co-design sessions resulted in some excellent insights (final results will be reported back to the group).

### Co-design plan and API Lifecycle

- B2G research questionnaire released last week and now closed (a walk-through of the results will be shared in our next meeting)
- In progress: Setup of a Miro board for future collaboration use (link to be shared once available).

### Key outcomes

- AGREED: Endorse Terms of Reference and close activity
- AGREED: John Perkins will represent the Sector Partners group at the next Tech Talk (Tuesday, 26 July at 2pm); TT promotions commence next week; and a link to register has been added to Sector Partners SharePoint site
- OPEN INVITE: Still time to apply for GPMS co-design activity.

### Next Meeting

11am, 22 July 2022
