*Identifying as Aboriginal and Torres Strait Islander is optional and the estimated population may be under reported.

**Includes all Aboriginal and Torres Strait Islander peoples who have received a vaccination, not limited to those administered in an ACCHS setting.

#ACCHS in the ACT are currently operating as Commonwealth Vaccine Clinics so not included to avoid double counting.

##The above table includes all identified Aboriginal and Torres Strait Islander people who are aged 16 and above by their state of residence.

* Previously versions of this chart incorrectly stacked complete populations receiving doses. This significantly inflated counts as individuals with more than two doses were counted multiple times across each category. The above has corrected for this error and individuals are now only included once.

There is overlap across CALD cohorts where individuals may have reported they had more than one CALD characteristic in the 2021 Census.

Small negative changes may appear when compared with the previous report due to perturbation, in particular for small population groups.
