- Quarterly Financial Reporting (QFR): Interface Playback
- Q&A / Next Steps

Discussion Highlights

State of Play

- Focus: Induct new members to the Sector Partners' group
- Welcome & introductions across the group – including for all new members
- Recap:
 - Operating principles, probity considerations, IP assumptions, & collaboration logistics
 - Recap: Co-design approach
 - Recap: Group progress to date

API: B2G Overview

- Deep dive: Insights from the Quality Indicators (QI) co-design activities
- Preview: Work-in-progress *Information* & re-useable *Service Catalogue* models
- Open Discussion on re-usable APIs
- Update: B2G progress & timeline

Discussion: An Introduction on Identity & Access Management

- Targeted discussions:
 - Risk discovery input particularly relating to authentication & identity protections
 - Current sector experience, pain points, barriers, & thoughts on immediate priorities

QFR: Interface Playback

- Item deferred (due to insufficient time)

Key Outcomes & Actions

- REMINDER: QFR & B2G activities - details on the Sector Partners site
- PROMPTING QUESTIONS for member consideration:
 - What part of your day is heavy in administrative burden because of reporting to the Department of Health?
 - How would you prioritise API development? Which APIs would give you the most benefit?
 - What are your current data sharing & reporting pain points?
