

# Sector Partners

Meeting: 8 | Meeting date: 2/09/2022

## Agenda

- Welcome & Introductions
- State of Play
- API: B2G Co-design Overview
- API: Quality Indicator (QI) Prototype Demo
- API: Discussion – Re-useable Design & Progress Update
- Q&A / Next Steps

## Discussion Highlights

### State of Play

- Members provided feedback on:
  - Acceptance & induction of new volunteers
  - Meeting cadence (e.g. fortnightly)
- Reminder: Next Teck Talk is 2pm, 6 Sept; draft agenda shared

### API: B2G Co-design Overview

- Recapped: Co-design approach
- Summarised: API intent & outlined real-world examples of potential API-suited initiatives (e.g. Quality Indicators, Care Minutes, SIRS)

### API: QI Prototype Demo

- Playback: Second co-design QI-focused workshop – including participants, process, & outcomes overview
- Demo: QI prototype, previewing first set of APIs for QI development as part of the 'lean build' approach \* available for members to view in the Anytime Platform

### API: Discussion – Re-usable Design & Progress Update

- Discussion: Concept of re-usable APIs proposed, with examples of new and re-usable elements by various use cases
- Update: Immediate focus is to apply co-design feedback to evolve the UI Component Build for the Developer portal & finalise the Alpha version of QI API experience

### Key Outcomes & Actions

- DECISION: New members to be invited & inducted for the next meeting
- ACTIONS for members:
  - Types of activities the co-design meetings should focus on
  - Input on current data sharing and reporting pain points?
  - High-priority goals for API development?
  - Ideas for future agenda items.

## Next Meeting

11am, 16 September 2022
