

Medical Research Future Fund Roll of Honour

The Medical Research Future Fund (MRFF) Roll of Honour acknowledges and celebrates the people who contributed to the MRFF grant assessment process between 1 July 2021 and 30 June 2022.¹

As [MRFF Grant Assessment Committee](#) (GAC) members, the following people have been integral to ensuring that the MRFF supports high impact projects, with sound methodology and strong teams, that can deliver real outcomes for the Australian community.

MRFF Grant Assessment Committees

The MRFF grant opportunity process is supported by the independent assessment of applications by GACs.

GACs are set up by the agencies that administer MRFF grant opportunities – the [National Health and Medical Research Council \(NHMRC\)](#) and the [Department of Industry, Science and Resources \(Business Grants Hub\)](#).

GACs comprise expert reviewers such as scientific experts, consumers, industry experts and health service providers. Members are selected on the basis that they will bring experience and expertise in a range of areas including:

- transdisciplinary
- academia
- clinical
- health services delivery
- translation research
- consumers and patients

¹ The MRFF Roll of Honour is based on information collected by the National Health and Medical Research Council and the Business Grants Hub in the Department of Industry, Science and Resources. Information was current as at 30 June 2022.

- Aboriginal and/or Torres Strait Islander health
- industry and commercialisation expertise.

The involvement of health services experts and consumers on GACs is particularly important given the emphasis placed on the translation of research funded by the MRFF.

The gender balance of GACs is also considered, along with geographic representation. NHMRC and Business Grants Hub also strive to include at least one international representative on each GAC to ensure MRFF funded research is internationally competitive.
