

# COVID-19 outbreaks in Australian residential aged care facilities

## National snapshot

As at 8:00 am 27 October 2022 there are 1,203 active COVID-19 cases in 196 active outbreaks in residential aged care facilities across Australia. There have been 73 new outbreaks, 18 new resident deaths and 1,069 combined new resident and staff cases reported since 20 October 2022.

<sup>1</sup> Outbreak opening and closure includes changes in the status of exposure sites to outbreaks (and vice versa), which are applied retrospectively to facility records. New case information can also change the status of a recovered site back to an active outbreak site. As a result, changes in active outbreak status may not align with day on day variations to active totals. These adjustments will also affect the number of cases in staff and residents reported each week.

<sup>2</sup> Active residents and staff cases are the total currently positive cases in active outbreaks

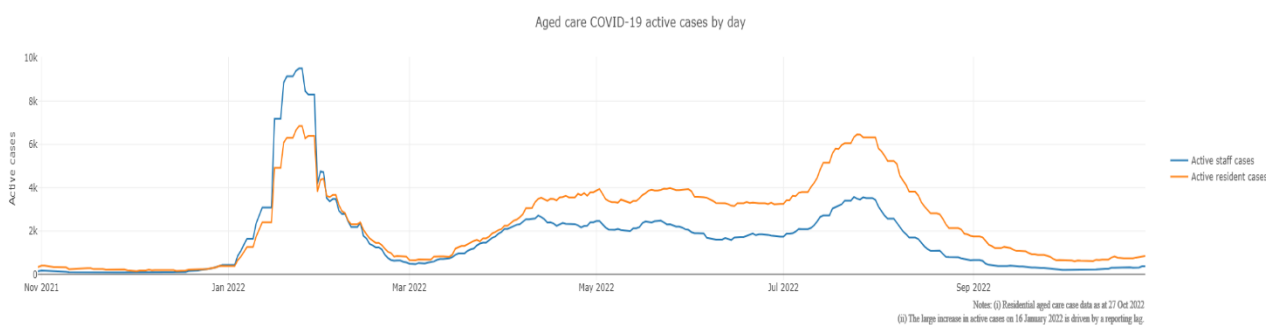

<sup>3</sup> An outbreak is considered to be active pending advice from the relevant Public Health Unit. An outbreak is defined as at least 1 positive case in a resident or 2+ cases in staff.

<sup>4</sup> Case numbers and numbers of deaths are dependent upon reporting from facilities and validation of deaths from state and territory governments. This is subject to change as further information is provided.

## Mortality

For the period of 1 January to 27 October 2022, COVID-19 is recorded as the cause of death in 6.2 per cent of all deaths in permanent residents in aged care facilities.

Since the beginning of the Omicron outbreak in late November 2021, there have been 56,193 deaths in residential aged care from all causes (report period from 29 November to 24 October 2022)<sup>6</sup>. COVID-19 deaths account for 5.7 per cent of this figure.

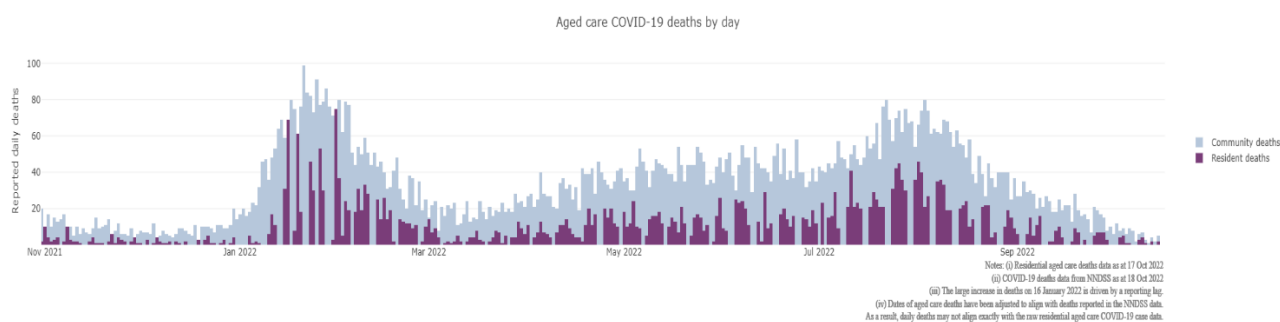

Over the course of the pandemic, all-cause excess mortality in Residential Aged Care was below expected numbers in 2020, and within expected range in 2021.

<sup>5</sup> For Figures 1, 2 and 3:

(i) Changes in the status of exposure sites to outbreaks (and vice versa) have been applied retrospectively to facility records - these changes impact the total staff cases, resident cases, and/or resident deaths reported  
(ii) For outbreaks that have re-opened due to subsequent case information received, days when the outbreak were previously reported as recovered have been retrospectively corrected to active – as a result the historic total number of daily active outbreaks are subject to change and may not align with the last published reports.

<sup>6</sup> The Department is now accessing aged care deaths data from the SIEBEL dataset. Figures are live and subject to change. Source: Department of Health and Aged Care unpublished data / SIEBEL dataset.

### Workforce in active residential aged care outbreaks

As at 28 October 2022, workforce surge staff have filled a total of 142,496 shifts in aged care services impacted by COVID-19, including 858 in the past 7 days. In the past 7 days (to 27 October) surge workforce providers have assisted 38 residential aged care homes. These shifts include roles for GPs, nurses, care workers, allied health workers, executive and ancillary staff. This includes:

**Table 3: Workforce resources supplied to residential aged care facilities**

Workforce provider	Total Shifts	Previous 7 days
Recruitment, Consulting and Staffing Association	89,208	423
Healthcare Australia (Workforce Surge)	12,339	28
Healthcare Australia (NACER)	2,295	N/A
Mable	2,711	N/A
Aspen Medical	19,572	151
HealthX	12,316	256
Torrens	4,055	N/A

As at 30 September 2022 the Australian Defence Force had provided support to a total of 542 residential aged care homes since February 2022. The ADF deployment ceased on 30 September 2022.

### Oral antiviral treatments

Distribution of the oral anti-viral Lagevrio (Molnupiravir) commenced on 6 February 2022 to all RACFs with outbreak sites prioritised for delivery. The National Medical Stockpile has deployed 48,269 treatment courses of Lagevrio (Molnupiravir) to aged care facilities.

29,820 prescriptions for Lagevrio (Molnupiravir) have been issued to residents in residential aged care facilities, with a further 759 prescriptions for Paxlovid (nirmatrelvir + ritonavir) also issued since 28 February 2022 and up to 23 October 2022.

### Vaccination in Residential Aged Care Facilities

The Australian Government's COVID-19 vaccination program is delivering in-reach vaccine services for aged care residents and workers across Australia, through Commonwealth vaccine providers, primary care and self-vaccination services by aged care providers.

The Government continues to provide all residential aged care facilities with access to COVID vaccination clinics to ensure residents have every opportunity to get their fourth dose. As at 20 October 2022, there are currently 147,243 residents eligible for fourth doses. In total 122,902 residents (83.5% of eligible residents) have received a fourth dose, noting more residents have become eligible following recent infection.

As at 28 October 2022, a total of 595,646 doses of COVID-19 vaccines have been administered to residents in residential aged care facilities. Information is now received from the Australian Immunisation Register, meaning reported numbers may differ from previous reports. Information from the Australian Immunisation Register provides a more accurate representation of residents currently in residential aged care.

\* Residents who have had a fourth dose of a COVID-19 vaccine (*this may include the booster dose for severely immunocompromised residents*) total residents in Commonwealth funded positions in residential aged care facilities

\*\* Residents who have had a fourth dose of a COVID-19 vaccine (*this may include the booster dose for severely immunocompromised residents*) over total residents who have had a third dose of a COVID-19 vaccine over 3 months ago (*this may include the third primary course dose for severely immunocompromised residents*)

\*\*\* Residents who have had a fourth dose of a COVID-19 vaccine (*this may include the booster dose for severely immunocompromised residents*) over total residents who have had a third dose of a COVID-19 vaccine over 3 months ago with case overlay applied (*this may include the third primary course dose for severely immunocompromised residents*). Eligible residents have been reduced by an estimate of the number of COVID cases in the facility. The number of cases is calculated by the number of cases self-reported through AUS-CAIRS over the last 90 days adjusted by the fourth dose vaccination rate in a facility (percentage by eligible residents).

## Infection control and audits

The Aged Care Quality and Safety Commission (Commission) conducts a range of site and non-site activities to monitor and assess residential aged care services, including site audits and assessment contacts (site and non-site) (see Table 5 below). In August 2020, the Commission commenced an infection control monitoring (ICM) spot check program in all Australian jurisdictions.

The ICM spot check program involves on-site visits to residential aged care services, without an outbreak, to check compliance with personal protective equipment (PPE) and infection control arrangements. The purpose of the ICM spot check is to observe infection control practices, to ensure that staff, management and visitors were adhering to safe personal protective equipment protocols and to safe infection control arrangements as required under the quality standards.

As at 27 October 2022, the Commission had conducted 4,043 ICM spot checks to observe

infection control practices and PPE protocols in residential aged care facilities.

## Appendix 1: National residential aged care services with Active outbreaks COVID-19

Please note, information reported in this table has been directly reported to the Department of Health and Aged Care by residential aged care facilities. Total cases refers to all staff and resident cases associated with the active outbreak and may not reflect the count of currently active cases. Where numbers have been incorrectly reported, facilities are able to correct these in the COVID-19 Support Portal through My Aged Care. Where a facility is reporting less than six resident or staff cases or less than six deaths, data has been suppressed to protect the privacy of affected individuals (note that “n/p” indicates data is not provided to protect privacy).
