Subject File Note: Meeting between the Department and Damien Match

s22

This document was released under the Freedom of Information Act 1982

- Damien Matcham confirmed that the land to build the new Narooma clinic has been released by the Local Aboriginal Land Council and the building can now proceed
- There was also some discussion on the current funding made available to Katungul for the Narooma clinic. Damien Matcham suggested changes to the current funding being provided for the Narooma clinic be split to also provide funds to refurbish the Bega clinic. The plan is to keep the current Narooma building and rent it out, approach the occupants of the community health building to buy that building and house the Narooma clinic there. The savings would be used to refurbish the Bega clinic. The Department advised it was not looking to change the current scope of works for the Narooma clinic.
