Hi David

Can you include some specific talking points around the stakeholder roundtable itself?

Suggested lines as follows:

- Roundtable participants represent all key areas (industry, academia, emergency medicine, public health etc)
- The roundtable and participant list was agreed by MDAF
- The roundtable presents an opportunity for key stakeholders to engage directly in discussion around the key areas of the strategy and present feedback and views for consideration

- Ultimate decision regarding the final version of the NAS will be determined by MDAF
- Representatives from industry only made up a small proportion of total reps (4 out of 30?)
