Agree – add 'models of care' to the WHY column. And could you return to them please with thanks, advising that we believe the priority as described as sufficient scope to accommodate the specifics of the NPP in play.

I have one more email to consider from an RACGP share – but it would appear to me the only come back internally was re is ADHA engaged (tick) and ACC. s 22  
Still waiting on s 22 thought.

When is the last date/time to register? Will do a courteous circulation of the FINAL FINAL to all AMRAB just prior.

Can you initiate a MR please.

Cheers, EK

**Erica Kneipp**

Hi Erica, please see the comments in the attached. I suggest that we don't accept the changes in the Priority, but happy to add models of care.

**Importance:** High

Dear all

Please find attached the FINAL DRAFT of the second set of MRFF Priorities developed in accordance with the *Medical Research Future Fund Act 2015* by the independent Australian Medical Research Advisory Board (AMRAB) following an extensive national consultation conducted in July and August just past.

These need to be finalised with haste to be registered for tabling as a non-disallowable legislative instrument.

There are 12 Priorities across the six Strategy Platforms identified by AMRAB under the still relevant MRFF Strategy 2016-2021. The Priorities are important because they are a reference point for the Government decision making on MRFF investments disbursements.

The Priorities in sum are:

1. One Health – AMR
2. Global Health and Health Security
3. Aboriginal and Torres Strait Islander Health
4. Ageing and Aged Care
5. Digital Health Intelligence
6. Comparative Effectiveness Research
7. Primary Care Research
8. Clinical Researcher Capacity
9. Consumer-Driven Research
10. Drug Repurposing
11. Public Health Interventions
12. Translational Research Infrastructure

There is relevance to many of your policy areas that you might like to be across.

Any issues of concern will need to be flagged to OHMR/HERD by **COB Monday 29 October 2018** – sorry for the short notice, but the document is only six pages and an easy read.

If you have any questions please contact <sup>s 22</sup> copying in [HMRInputs@health.gov.au](mailto:HMRInputs@health.gov.au).

. Please send any input to [HERDInputs@health.gov.au](mailto:HERDInputs@health.gov.au)

Kind regards

s 22
