

# ! STOP

Do not open door until you know which vaccines you need and where they are located.

Vaccines must be stored between +2°C and +8°C to guarantee their potency.

Read and record the refrigerator temperature twice daily and reset the thermometer.

Is the refrigerator temperature between +2°C and +8°C?

Report to nominated vaccine manager if refrigerator temperature has been outside the +2°C to +8°C range.

## **Do not use or discard vaccines**

unless advised to do so by your state or territory health department.
